For you," he grinned, handing  
r some papers to the surprised  
ptal. The papers informed  
ckwell he was now a second  
utnant in Uncle Sam's Army as  
result of battle valor. He was  
mediately sworn in.

That evening this Second Ar-  
red Division's newest shavetail  
d his rifle company saw a column  
21 German vehicles coming along  
e road. They hid by the roadside  
til the enemy column was in the  
dst of the American lines. Then  
e Yanks, yelling like pirates, leapt  
shed out and began boarding the  
emy vehicles.

The Nazi crews fought back  
vaguely. The Germans and Ameri-  
cans locked in man to man combat  
der a bright winter moonlight.

**Killed 65 Germans**

"We used every type of weapon—  
en rocks if they were the only  
ings handy," one soldier said.  
At the height of the battle Stock-  
ell swung his carbine to club a  
erman in front of him. An enemy  
his rear tore it from his grasp.  
t before the Jerry could swing  
t Stockwell one of the lieutenant's  
en quickly bayoneted the enemy.  
"The Jerry in front of me ran  
ay," said Rockwell.

The battle ended with all the Ger-  
an vehicles in American hands  
d 65 enemy dead lying around.  
t a bad debut for a second lieut-  
nant.

**Commissioned On Field**

On the same day Stockwell got his  
hole promotion three sergeants  
the same armored infantry reg-  
ent were bestowed to lieutenants  
in colorful ceremony in a chateau.  
They were Sgt. Herman Alford,  
sher, La., Sgt. Eugene V. Berry,  
ammoth, W. Va., and T-Sgt. James  
Rhodes, Milford Center, Ohio.  
ey were sworn in by Capt. Charles  
Johnstone, Whistled Conn.

One stubborn little Mexican-  
merican machine gunner with the  
econd Infantry Division is credited  
his commanding officer with kill-  
g a hundred Germans in a battle  
ring which he fired 5,000 rounds  
the face of point blank fire from  
Tiger Royal tank.

**FACTORY FIRE  
DAMAGE LIGHT**

Damage amounting to "several  
undred dollars at the most" was  
used when fire broke out in the  
lshing room of the Reuser furna-  
e company this morning about  
o'clock.

M. C. Jones, manager of the plant  
d the cause of the blaze, which  
as quickly extinguished, had not  
en determined. He also gave the  
image estimate.

The flames started in a spray  
oth and climbed a fume-escape  
ipe to the roof which also caught  
re. Members of the Reuser hose  
mpany had the blaze under con-  
il by the time trucks from the  
ettyburg fire company reached  
e building. Gettysburg company  
remen used a light line and boost-  
e tank to extinguish smoldering  
nbers on the roof.

Work was not interrupted in other  
arts of the plant and cleaning up  
erations were begun immediately  
the finishing room where only  
e one spray booth was affected.

Two COUNTAINS, ARMY CHAPLAIN ARE "MISSING"

Pfc. Robert N. Eisenhart, 32, has been reported as missing in action in Germany since December 16, according to a War Department telegram received by his wife, Mrs. Helen R. Eisenhart, Aspers, Saturday morning.

The telegram read: "The Secretary of War desires me to express his deep regret that your husband, Pfc. Robert N. Eisenhart, has been reported missing in action since December 16 in Germany. If further details or information are received you will be promptly notified. Dunlop, acting adjutant general."

Mrs. Eisenhart last received a letter from her husband on December 27 which had been written in England November 27 in which Pfc. Eisenhart stated he was repairing guns as he had done in the United States.

**Has 12-Year-Old Son**

Pfc. Eisenhart, a son of Mr. and Mrs. C. A. Eisenhart, East Berlin, entered the service March 6, 1944, and received his basic training at Camp Blanding, Fla. He arrived home on a furlough July 19, returned to Camp Meade, Md., on August 2. On September 2 he was sent to Camp Atterbury, Ind., and during his month there was visited by his wife. He went overseas in October as a member of an infantry outfit.

The couple has a son, Leo R., aged 12 years.

A brother of the missing soldier, Cpl. Merle E. Eisenhart, is serving in North Africa.

**College, Seminary Grad**

The Rev. Donald R. Stonesifer, 39, former pastor of Trinity Lutheran church, Smithburg, Md., and an Army chaplain, is missing in action in Germany, according to word received by his wife, who resides in Hagerstown.

The Rev. Mr. Stonesifer graduated from Gettysburg college in 1926 and from the Lutheran Theological seminary in 1939.

The Rev. Mr. Stonesifer enlisted in the Army Chaplain Corps last summer and was sent to Harvard university, where he received the chaplain course, after which he left with an Army unit for overseas service as a first lieutenant.

**Day of Nazi Drive**

The Smithburg minister has been missing since December 16, the day the Germans launched their counter-offensive in the Ardennes salient.

Possibly serving with some unit in the front lines, he may have been taken a prisoner when the German thrust engulfed the unit to which he was attached.

The Rev. Mr. Stonesifer was formerly assistant pastor of St. John's Lutheran church, Hagerstown, for two years before accepting the pastorate of Trinity at Smithburg about two years ago. He succeeded Rev. Max Huddle when the latter enlisted as a Navy Chaplain. He was formerly of Hanover, a son of Robert W. Stonesifer.

The Rev. Mr. Stonesifer has two small children.

**Pvt. Harper Baker**

Pvt. Harper E. Baker, 24, husband of Mrs. Marie (Small) Baker, East Berlin R. 2, has been reported by the War department as missing in action in Germany.

Pvt. Baker, a son of Mr. and Mrs. Maurice Baker, also of East Berlin R. 2, is the father of four small children.

A cousin of the missing soldier, Sgt. Ralph E. Baker, Abbotstown, was reported killed December 12 in the European theater of war.

**Hospital Report**

Admissions to the Warner hospital over the week-end included: Mrs. Francis Kelly, Emmitsburg; Lee Knouse, Biglerville; Mrs. Gladstone Abell, Emmitsburg; Mrs. Fred Spitzer, Gettysburg R. 4; Mrs. Charles Helmer, East Berlin; Mrs. Roy Baker, Sr., Biglerville; Bernard McNair Welby, Emmitsburg, and Mrs. Emma Pitzer, Silver Run, Md. Those discharged were Mrs. Donald Weaver and infant daughter, Cheryl Elaine, Chambersburg street; Miss Dorothy Blair, Littlestown; Donald Weant, Emmitsburg; Mrs. David Starner and infant daughter, of Taneytown; Mrs. Frank Weaver, Gettysburg R. D.; Alvey Gantz, Aspers; Frank Newell, Gettysburg R. D.; Mrs. John Shepard, Aspers; Mrs. Donald Bowers, Taneytown, and Mrs. James Marshall, York Springs.

**Mrs. John H. Pape, Buford avenue, and Mrs. Wilmer E. Bream, Biglerville R. D., have returned after a three-day duck hunting trip on the Raskob estate, Centerville, Md.**

**Colonel Thomas H. Nixon Is Patton's Ordnance Officer**

Colonel Thomas Hay Nixon, native of Gettysburg, is shown talking with Lt. Gen. George S. Patton (right), commanding general of the U. S. Third Army on the western front, "somewhere in France." Colonel Nixon is General Patton's ordnance officer. Everything that rolls on wheels or shoots is ordnance equipment and General Patton attributes much of the success of the Third Army's success to work of his Ordnancemen and Ordnance equipment. Colonel Nixon was born in Gettysburg, Feb. 22, 1895. He graduated from Gettysburg college in 1915 and from West Point in 1918. He is the son of the late Henry Barber Nixon and the late Mrs. Kate Nixon.

**Third Army Front, Jan. 15 (AP)—**When the news contains lines like this: "American artillery fired 25,000 rounds in one sector today," it is just another of war's everyday wonders and attracts no particular attention.

Probably that is as it should be. That is what ordnance people are for and that is what they are supposed to do—have 25,000 to 50,000 rounds ready for firing as they are needed anytime and in any sector no matter how narrow.

Still, 25,000 shells would fill about 40 railroad cars and that is a good long train. Every shell had to be handled twice by Army ordnance men alone, not counting the work of making them and getting them into the Army area.

**Just One Sector**

And that 25,000 figure usually is just for one sector where our artillery is particularly active and does not begin to represent the total for the whole front.

It is such a big job that in the Third Army Ordnance organization (Please Turn to Page 5)

**FATHER AND SON JOIN MERCHANT MARINE SERVICE**

Clyde Baumgardner, 40-year-old Biglerville restaurant proprietor, and his son, Clyde, Jr., who reached his 18th birthday anniversary January 2, have enlisted in the Merchant Marine with specialist ratings and reported last Wednesday in Baltimore. They expect to ship out soon on the same boat.

Mr. Baumgardner, a veteran of three years of service with the former National Guard as a cook, entered the merchant service with the rating of second cook. The son will serve as messman on the basis of the training he received as a helper at the Biglerville restaurant.

The restaurant business will be continued by Mrs. Baumgardner and their 20-year-old daughter, Ellen. The restaurant is located in the square at Biglerville in the former Biglerville hotel building.

**One Gold Star**

The Baumgardners are a "fighting family" with three other members in the service and one gold star on their service flag.

Mrs. Baumgardner's brother, Sgt. George W. Warner, died in France last August 7 of pneumonia after serving in the field as a cook with a U. S. Army outfit. Two other brothers are overseas—Cpl. Jack Warner, who is with the Air Corps in Italy, and Pfc. Martin Warner serving with the Signal Corps in France.

Mr. Baumgardner has a brother, Pvt. Wade Leo Baumgardner, Biglerville R. 1, who is with a commando outfit in New Guinea.

**Officer Destroys Vicious Dog Here**

Officer Charles W. Culp destroyed a large brown Spitz-German police dog, described by many residents as a "vicious" animal, Sunday afternoon at 3:30 o'clock following new complaints.

For some time the dog, according to police, has been attacking local residents in various parts of town. Sunday afternoon Officer Culp destroyed the dog near the Lloyd Durbornaw home, Springs avenue.

**Services Are Held For Mrs. C. A. Bixler**

Funeral services for Mrs. Bess Bixler, wife of C. A. Bixler, New Oxford, were conducted this afternoon at 2 o'clock at the Bixler home with the Rev. Dr. Dwight F. Putnam, pastor of Christ Lutheran church, officiating. The services were private. Interment was made in the New Oxford cemetery.

The pallbearers were Dr. W. S. Mountain, C. A. Willis, Guy Wigg, Benjamin Witmer, Prof. C. P. Keefer and Henry M. Scharf.

He is the son of the late Henry Barber Nixon and the late Mrs. Kate Nixon.

**Scrap Collection Here Next Sunday**

The regular monthly collection of scrap by the Gettysburg firemen will take place next Sunday afternoon.

Some local residents were under the impression that the collection was to take place yesterday and placed their scrap on the curb for the firemen to gather. The date is January 21 as announced in The Gettysburg Times last week.

There is an urgent need for all scrap material and local householders are urged to save every piece including waste paper, tin cans, etc. The collection will start next Sunday afternoon at one o'clock.

**H. KALBFLEISCH DIES SATURDAY AT AGE OF 80**

William Henry Kalbfleisch, 80, died at his home, 12 South Washington street, Saturday evening at 8:45 o'clock from a complication of diseases. He had been in ill health for five years and was bedfast since last July.

The deceased was born in Adams county, a son of the late George F. and Anna Catherine (Zinn) Kalbfleisch. He spent most of his life in Gettysburg and was prominent in many organizations.

Mr. Kalbfleisch attended the local public schools. He was a charter member of the Red Men of Hanover, for over 50 years; member of the P. O. S. of A. of Gettysburg; charter member of the Gettysburg Aerie of Eagles, 1562, Gettysburg, of which he was the first secretary; member of the Daughters of Liberty of which he was secretary for many years; member of the Gettysburg Fire company, Veteran Firemen's association, Adams County Firemen's association and a non-beneficial member of the State Firemen's association. He was secretary of the borough for a number of years.

He operated a tobacco store here for a number of years.

Surviving are his widow, the former Miss Jennie Fleming, to whom he was married 57 years; one sister, Miss Eleanor Kalbfleisch, Gettysburg, and a number of nieces and one nephew.

Funeral services from the Bender funeral home Tuesday afternoon at 2 o'clock conducted by the Rev. Charles K. Gibson. Interment in Evergreen cemetery.

Friends may call at the funeral home this evening after 7 o'clock.

**2 PARTIES AT YOUTH CENTER**

High school pupils enjoyed recreation night at the local Youth Center, Chambersburg street, Saturday night from eight until 11 o'clock. On Friday evening grade school students were entertained from seven to 10 o'clock.

Members of the National Council of Catholic Women of St. Francis Xavier's Catholic church acted as hostesses.

Miss Mary Ramer, chairman of the Hostess committee of the Adult committee of the Youth Center, said the first two recreation nights were "very successful." Hostesses for succeeding recreation nights to be held regularly each week will be selected from the various church and civic organizations of town.

Because of the need for coat hangers the admission for the next recreation night will be one coat hanger, the Junior committee announced.

An appeal was also issued by Miss Ramer for table games and a ping-pong table. Anyone having games or a ping-pong table they wish to donate to the Youth Center are urged to telephone Miss Ramer.

**Sgt. Townsend Wins Air Medal, Citation**

Tech. Sgt. Albert S. Townsend, 21, son of Mr. and Mrs. C. M. Townsend, York Springs, has been awarded the air medal for meritorious service with the Seventh Army Air Force Liaison Squadron in France.

He is a graduate of the York Springs high school and attended Gettysburg college for one year before he entered service January 27, 1942. He was a member of the TKE fraternity on the campus.

He has been overseas since June, 1944, and at the time the citation and medal were awarded he had completed 35 missions. The citation covers the period from August 9 to November 6, 1944.

**Allies Cross Agno River; Are 88 Miles From Manila**

By C. YATES McDANIEL

General MacArthur's Headquarters, Luzon, Jan. 15 (AP)—U. S. Sixth Army troops crossed the formidable but virtually undefended Agno river 88 miles from Manila and overran scattered Japanese to expand their Lingayen Gulf beachhead 30 miles to a total of 45, Gen. Douglas MacArthur reported today.

The infantrymen in their fifth day of the invasion hurled the Agno, where the enemy had been expected to make a stand, at Bayambang, 22 miles from the gulf. They continued south at a pace limited only by the ability of supply columns to keep up with them.

Mangatarem was captured by the westernmost spearhead in an eight-mile advance brushing through two enemy skirmishing parties of 150 men each. The eastern flank had more difficult going but approached Catablan, 20 road miles inland, in a five-mile gain.

On this front the Yanks ran into small arms and artillery fire from an enemy position of foxholes and dugouts. Eighty-two Japanese and a few Americans were killed.

Extension of the beachhead took in the important rail and highway junction of Damortis on the north and approached Alaminos on the southern side of the crescent-shaped arc, representing gains of 10 and 20 miles, respectively, from an original beachhead measuring 15 miles.

Capture of Damortis, where the Americans found little more than sniper fire, seals off Japanese troops on the northwest coast from the only highway leading into the Benguet mountains. Some Japanese military leaders are believed to be in these mountains at Baguio, summer capital of the Philippines.

**Japs Abandon Material**

The sweep westward to Alaminos included seizure of Port Saul after short, sharp fight. Associated Press War Correspondent Fred Hampson reported the Yanks captured a quantity of equipment there—the first instance of material abandoned by the Luzon Japanese.

Hampson said the Japanese apparently did not plan to offer a defense along the Agno, the strongest natural barrier since the landing. He said the unit he accompanied "met 100 Japanese not far from the Agno, but they were lightly armed and put up little fight."

MacArthur's communique covering operations Saturday said the enemy "has as yet been unable to concentrate forces in resistance." A spokesman reported the only stiff opposition was still in the hilly section in the northeast part of the battle-front, near Pozorrubio.

**MISS SAYLOR IS WED TO OFFICER**

Miss Betty Lou Saylor, daughter of Mr. and Mrs. Robert F. Saylor, 330 Baltimore street, and Lt. Robert Stoner, son of Mrs. C. A. Stoner, 129 Baltimore street, were married in the Sixth Regiment chapel at Fort McClellan, Ala., Sunday afternoon at 2:30 o'clock.

They were united in a simple ceremony at which Lt. William Papageorge, a friend of the groom, was the best man, and the attendant of the bride was a Mrs. Samowitz.

The bride wore a blue velvet dress with matching accessories and an orchid corsage. Following the ceremony, a wedding dinner was served at the post.

Lieutenant Stoner is a graduate of Gettysburg high school with the class of 1940 and graduated from the University of Pittsburgh in 1943. While in college he was a member of the ROTC artillery unit but when he graduated he was transferred to the infantry.

Mrs. Stoner is a graduate of Gettysburg high school with the class of 1941. Before her marriage she was employed in the budget bureau department in the Governor's office at Harrisburg.

The newlyweds will reside for the present at Fort McClellan.

**Weather Forecast**

Light snow with rain or sleet tonight; Tuesday clearing and continued cold.

**German Retreat To Siegfried Line Is Turning Into Rout**

By JAMES M. LONG

Paris, Jan. 15 (AP)—First Army tanks and infantry stormed at the approaches of Houffalize today and the fall of that communication center in the flattening Belgian bulge appeared imminent.

The Germans, apparently withdrawing all the way to the Siegfried line, attempted to stiffen their defenses to save both Houffalize and St. Vith. Lt. Gen. Courtney H. Hodges' troops were within six and a half miles of St. Vith, and one and a half miles of Houffalize.

Fog blotted out Ardennes valley roads after Allied planes yesterday made the German retreat one of ruin.

**Violent Tank-Infantry Battle Rages**

North of St. Vith, the enemy mounted a series of counter-attacks against the U. S. First Army around captured Thirimont, touching off a violent tank and infantry battle. Despite snow and ice, the Americans made general gains of 1,000 yards on the northeast flank of the bulge between Stavelot and Malmédy.

The First captured 15 places overnight, biting deeper into the shoulder of the salient, and striking final blows to liquidate the western tip of the bulge, where contact was established with the Third Army southeast of Laroche.

Houffalize, almost in the dead center of the bulge at its most expanded stage, appeared doomed as the Allies battered within three to three and a half miles of the town on three sides.

The Germans tightened their defenses overnight in an effort to check the U. S. Third Army driving up from the south. Presently at least, Houffalize was the hinge of German defenses.

**Capture Many Towns**

Overnight, two dozens or more towns were captured including Tetingen, three miles inside Germany's Saarland opposite Luxembourg.

Supreme headquarters said the enemy was pouring reinforcements into the middle Saar and upper Alsace plain battlefields, where their earlier offensive thrusts had been brought to a standstill.

The first Army took Dinex on the Liege highway two miles north of Houffalize.

Between Malmédy and Stavelot along the northeast side of the bulge, the First Army captured Ligneuville, 6½ miles northwest of St. Vith and four miles south of Malmédy. Beaumont was reached and Coule, six miles northwest of St. Vith, was taken.

Near German-held Bovigny, 10 miles northeast of Houffalize, the Americans captured Baclain, Montle-Ban and Halconreux, all in an arc around the larger town. The Houffalize-St. Vith highway, last major traffic artery in the bulge, was cut yesterday and being overrun today.

**Destroy 6 Tanks**

Nedrin, five miles southeast of Laroche, fell after scant resistance. A cluster of nearby places were taken including Petit Mornont, Grand Mornont, Filly and Ollomont. Also captured was Wibrin, four miles northwest of Houffalize. The town toppled after six of 12 defending German tanks were destroyed. Near-by Wilogne also was taken.

On the south side of the bulge, Lt. Gen. George S. Patton's Third Army was held to less spectacular advances.

His Sixth Armored Division thrust a mile ahead to Michamps, 4½ miles northeast of Bastogne. Infantry edged a quarter mile into woods 3½ miles northwest of the Luxembourg town of Wittz.

Just north of the Hagenau forest area of northeast France, the Germans launched another attack on the Hatten area where Lt. Gen. Alexander M. Patch's Seventh Army attempted to halt enemy attempts to break through Magnot line positions. Four Nazi tanks broke into Hatten last night, but had been driven off by midnight.

**Screen Of Tanks**

Field Marshal Von Rundstedt strove to hold St. Vith, where two railroads and seven important highways meet four miles west of the German frontier. He sent over 25 tanks, lightly supported by infantry, against Hodges' men at Thirimont, and these were badly mauled in two engagements during darkness.

The Americans after cutting the Houffalize-St. Vith road threatened to sever another from Vielsalm to Cheralin.

The Germans were fighting on the north behind strong screens of anti-tank guns painted white and hidden in snow drifts.

West of the Laroche-Bertogne road, only German stragglers and a few suicide squads remained as British forces and U. S. Third Army troops fanned through the entire (Please Turn to Page 2)

Colonel Thomas H. Nixon Is Patton's Ordnance Officer

Colonel Thomas Hay Nixon, native of Gettysburg, is shown talking with Lt. Gen. George S. Patton (right), commanding general of the U. S. Third Army on the western front, "somewhere in France." Colonel Nixon is General Patton's ordnance officer. Everything that rolls on wheels or shoots is ordnance equipment and General Patton attributes much of the success of the Third Army's success to work of his Ordnancemen and Ordnance equipment. Colonel Nixon was born in Gettysburg, Feb. 22, 1895. He graduated from Gettysburg college in 1915 and from West Point in 1918. He is the son of the late Henry Barber Nixon and the late Mrs. Kate Nixon.

Third Army Front, Jan. 15 (AP) —

When the news contains lines like this: "American artillery fired 25,000 rounds in one sector today," it is just another of war's everyday wonders and attracts no particular attention.

Probably that is as it should be. That is what ordnance people are for and that is what they are supposed to do—have 25,000 to 50,000 rounds ready for firing as they are needed anytime and in any sector no matter how narrow.

Still, 25,000 shells would fill about 40 railroad cars and that is a good long train. Every shell had to be handled twice by Army ordnance men alone, not counting the work of making them and getting them into the Army area.

Just One Sector

And that 25,000 figure usually is just for one sector where our artillery is particularly active and does not begin to represent the total for the whole front.

It is such a big job that in the Third Army Ordnance organization (Please Turn to Page 5)

Here And There  
News Collected At Random

We should gird ourselves for some discouraging war news this week when the War Department announces the American casualties in the German breakthrough on the western front.

The Germans launched their counterattack on December 16, ran pell-mell through the Allies for many miles, capturing prisoners and exacting a heavy death and casualty toll. Since that time the Allies have staged a comeback and now have the enemy on what almost amounts to a rout in their retreat to the Rhine.

But the cost must have been heavy on our side. We have not been told the loss but we will be given the sad news this week. It will be shocking but it should gird us to a new and greater effort on the home front, to do everything within our power to hasten the victory that is bound to be ours. Before that day comes there will be many dark days for us. Let's keep on punching.

Rites This Morning For W. A. Criswell

Funeral services for William A. Criswell, 86, who died at his home, 163 East Middle street, Friday afternoon at 2 o'clock at the Bixler home with the Rev. Dr. Dwight F. Putnam, pastor of Christ Lutheran church, officiating. The services were private. Interment was made in the New Oxford cemetery. The pallbearers were Dr. W. S. Mountain, C. A. Willis, Guy Twigg, Benjamin Witmer, Prof. C. P. Keefer and Henry M. Scharf.

FATHER AND SON JOIN MERCHANT MARINE SERVICE

Clyde Baumgardner, 40-year-old Biglerville restaurant proprietor, and his son, Clyde, Jr., who reached his 18th birthday anniversary January 2, have enlisted in the Merchant Marine with specialist ratings and reported last Wednesday in Baltimore. They expect to ship out soon on the same boat.

Mr. Baumgardner, a veteran of three years of service with the former National Guard as a cook, entered the merchant service with the rating of second cook. The son will serve as messman on the basis of the training he received as a helper at the Biglerville restaurant.

The restaurant business will be continued by Mrs. Baumgardner and their 20-year-old daughter, Eileen. The restaurant is located in the square at Biglerville in the former Biglerville hotel building.

One Gold Star

The Baumgardners are a "fighting family" with three other members in the service and one gold star on their service flag.

Mrs. Baumgardner's brother, Sgt. George W. Warner, died in France last August 7 of pneumonia after serving in the field as a cook with a U. S. Army outfit. Two other brothers are overseas—Cpl. Jack Warner, who is with the Air Corps in Italy, and Pfc. Martin Warner serving with the Signal Corps in France.

Mr. Baumgardner has a brother, Pvt. Wade Leo Baumgardner, Biglerville R. 1, who is with a commando outfit in New Guinea.

Officer Destroys Vicious Dog Here

Officer Charles W. Culp destroyed a large brown Spitz-German police dog, described by many residents as a "vicious" animal, Sunday afternoon at 3:30 o'clock following new complaints.

For some time the dog, according to police, has been attacking local residents in various parts of town. Sunday afternoon Officer Culp destroyed the dog near the Lloyd Durbarow home, Springs avenue.

Services Are Held For Mrs. C. A. Bixler

Funeral services for Mrs. Bess Bixler, wife of C. A. Bixler, New Oxford, were conducted this afternoon at 2 o'clock at the Bixler home with the Rev. Dr. Dwight F. Putnam, pastor of Christ Lutheran church, officiating. The services were private. Interment was made in the New Oxford cemetery. The pallbearers were Dr. W. S. Mountain, C. A. Willis, Guy Twigg, Benjamin Witmer, Prof. C. P. Keefer and Henry M. Scharf.

Scrap Collection Here Next Sunday

The regular monthly collection of scrap by the Gettysburg firemen will take place next Sunday afternoon.

Some local residents were under the impression that the collection was to take place yesterday and placed their scrap on the curb for the firemen to gather. The date is January 21 as announced in The Gettysburg Times last week.

There is an urgent need for all scrap material and local householders are urged to save every piece including waste paper, tin cans, etc. The collection will start next Sunday afternoon at one o'clock.

H. KALBFLEISCH DIES SATURDAY AT AGE OF 80

William Henry Kalbfleisch, 80, died at his home, 12 South Washington street, Saturday evening at 8:45 o'clock from a complication of diseases. He had been in ill health for five years and was bedfast since last July.

The deceased was born in Adams county, a son of the late George F. and Anna Catherine (Zinn) Kalbfleisch. He spent most of his life in Gettysburg and was prominent in many organizations.

Mr. Kalbfleisch attended the local public schools. He was a charter member of the Red Men of Hanover, for over 50 years; member of the P. O. S. of A. of Gettysburg; charter member of the Gettysburg Aerie of Eagles, 1562, Gettysburg, of which he was the first secretary; member of the Daughters of Liberty of which he was secretary for many years; member of the Gettysburg Fire company, Veteran Firemen's association, Adams County Firemen's association and a non-beneficial member of the State Firemen's association. He was secretary of the borough for a number of years.

He operated a tobacco store here for a number of years.

Surviving are his widow, the former Miss Jennie Fleming, to whom he was married 57 years; one sister, Miss Eleanor Kalbfleisch, Gettysburg, and a number of nieces and one nephew.

Funeral services from the Bender funeral home Tuesday afternoon at 2 o'clock conducted by the Rev. Charles K. Gibson. Interment in Evergreen cemetery.

Friends may call at the funeral home this evening after 7 o'clock.

2 PARTIES AT YOUTH CENTER

High school pupils enjoyed recreation night at the local Youth Center, Chambersburg street, Saturday night from eight until 11 o'clock. On Friday evening grade school students were entertained from seven to 10 o'clock.

Members of the National Council of Catholic Women of St. Francis Xavier's Catholic church acted as hostesses.

Miss Mary Ramer, chairman of the Hostess committee of the Adult committee of the Youth Center, said the first two recreation nights were "very successful." Hostesses for succeeding recreation nights to be held regularly each week will be selected from the various church and civic organizations of town.

Because of the need for coat hangers the admission for the next recreation night will be one coat hanger, the Junior committee announced.

An appeal was also issued by Miss Ramer for table games and a ping-pong table. Anyone having games or a ping-pong table they wish to donate to the Youth Center are urged to telephone Miss Ramer.

Sgt. Townsend Wins Air Medal, Citation

Tech. Sgt. Albert S. Townsend, 21, son of Mr. and Mrs. C. M. Townsend, York Springs, has been awarded the air medal for meritorious service with the Seventh Army Air Force Liaison Squadron in France. He is a graduate of the York Springs high school and attended Gettysburg college for one year before he entered service January 27, 1942. He was a member of the TKE fraternity on the campus. He has been overseas since June, 1944, and at the time the citation and medal were awarded he had completed 35 missions. The citation covers the period from August 9 to November 6, 1944.

Allies Cross Agno River; Are 88 Miles From Manila

By C. YATES McDANIEL  
General MacArthur's Headquarters, Luzon, Jan. 15 (AP)—U. S. Sixth Army troops crossed the formidable but virtually undefended Agno river 88 miles from Manila and overran scattered Japanese to expand their Lingayen Gulf beachhead 30 miles to a total of 45. Gen. Douglas MacArthur reported today.

The infantrymen in their fifth day of the invasion hurdled the Agno, where the enemy had been expected to make a stand, at Bayanhang, 22 miles from the gulf. They continued south at a pace limited only by the ability of supply columns to keep up with them.

Mangatarem was captured by the westernmost spearhead in an eight-mile advance brushing through two enemy skirmishing parties of 150 men each. The eastern flank had more difficult going but approached Catabian, 20 road miles inland, in a five-mile gain.

Take Vital Areas

On this front the Yanks ran into small arms and artillery fire from an enemy position of foxholes and dugouts. Eighty-two Japanese and a few Americans were killed.

Extension of the beachhead took in the important rail and highway junction of Damortis on the north and approached Alaminos on the southern side of the crescent-shaped arc, representing gains of 10 and 20 miles, respectively, from an original beachhead measuring 15 miles.

Capture of Damortis, where the Americans found little more than sniper fire, seals off Japanese troops on the northwest coast from the only highway leading into the Benguet mountains. Some Japanese military leaders are believed to be in these mountains at Baguio, summer capital of the Philippines.

Japs Abandon Material

The sweep westward to Alaminos included seizure of Port Saul after a short, sharp fight. Associated Press War Correspondent Fred Hampson reported the Yanks captured a quantity of equipment there—the first instance of material abandoned by the Luzon Japanese.

Hampson said the Japanese apparently did not plan to offer a defense along the Agno, the strongest natural barrier since the landing. He said the unit he accompanied "met 100 Japanese not far from the Agno, but they were lightly armed and put up little fight."

MacArthur's communique covering operations Saturday said the enemy "has as yet been unable to concentrate forces in resistance." A spokesman reported the only stiff opposition was still in the hilly section in the northeast part of the battle-front, near Pozorribio.

MISS SAYLOR IS WED TO OFFICER

Miss Betty Lou Saylor, daughter of Mr. and Mrs. Robert F. Saylor, 330 Baltimore street, and Lt. Robert Stoner, son of Mrs. C. A. Stoner, 129 Baltimore street, were married in the Sixth Regiment chapel at Fort McClellan, Ala., Sunday afternoon at 2:30 o'clock.

They were united in a simple ceremony at which Lt. William Papageorge, a friend of the groom, was the best man, and the attendant of the bride was a Mrs. Samowitz.

The bride wore a blue velvet dress with matching accessories and an orchid corsage. Following the ceremony, a wedding dinner was served at the post.

Lieutenant Stoner is a graduate of Gettysburg high school with the class of 1940 and graduated from the University of Pittsburgh in 1943. While in college he was a member of the ROTC artillery unit but when he graduated he was transferred to the infantry.

Mrs. Stoner is a graduate of Gettysburg high school with the class of 1941. Before her marriage she was employed in the budget bureau department in the Governor's office at Harrisburg.

The newlyweds will reside for the present at Fort McClellan.

Weather Forecast

Light snow with rain or sleet tonight; Tuesday clearing and continued cold.

German Retreat To Siegfried Line Is Turning Into Rout

By JAMES M. LONG

Paris, Jan. 15 (AP)—First Army tanks and infantry stormed at the approaches of Houffalize today and the fall of that communication center in the flattening Belgian bulge appeared imminent.

The Germans, apparently withdrawing all the way to the Siegfried line, attempted to stiffen their defenses to save both Houffalize and St. Vith. Lt. Gen. Courtney H. Hodges' troops were within six and a half miles of St. Vith, and one and a half miles of Houffalize.

Fog blotted out Ardennes valley roads after Allied planes yesterday made the German retreat one of ruin.

Violent Tank-Infantry Battle Rages

North of St. Vith, the enemy mounted a series of counterattacks against the U. S. First Army around captured Thirimont, touching off a violent tank and infantry battle. Despite snow and ice, the Americans made general gains of 1,000 yards on the northeast flank of the bulge between Stavelot and Malmédy.

The First captured 15 places overnight, biting deeper into the shoulder of the salient, and striking final blows to liquidate the western tip of the bulge, where contact was established with the Third Army southeast of Laroche.

Houffalize, almost in the dead center of the bulge at its most expanded stage, appeared doomed as the Allies battered within three to three and a half miles of the town on three sides.

SOVIET FORCES ARE 64 MILES FROM GERMANY

By EDDIE GILMORE

Moscow, Jan. 15 (AP)—Russian armored forces surged through Southern Poland today to within 64 miles of the heavily fortified German Silesian frontier amid mounting indications that the new Soviet winter offensive may soon spread over the entire eastern front from the Baltic to Yugoslavia.

Marshal Ivan S. Konev's new thrust, which in three days has carried across the Nida river on a 37-mile front and drove a deep wedge into the Warsaw-Krakow defense line, appears to be part of a great Red Army general offensive to clear Poland, liberate Warsaw and carry the battle to the industrial areas of Southeastern Germany.

Berlin reported late last night that other powerful Soviet forces had begun attacks west of the Vistula at Magnuszew and Pulawy, 33 and 65 miles southeast of Warsaw and along the Narew river north of the Polish capital. Earlier German broadcasts told of new Russian attacks in East Prussia.

Gain 15 Miles

Fighting in sub-zero temperatures Konev's troops made gains yesterday up to 15 miles and captured 200 more localities for a three-day total of 555.

In the northern sector of his salient across the Vistula, however, his troops met sharply stiffening Nazi resistance just south of Klec. Other Red Army elements seeking to push their way up the Vistula toward Warsaw ran into the same hard defensive fighting.

Military observers in Moscow pointed out that Marshal Konstantin Rokossovsky's First White Russian Army was massed before Warsaw on the eastern bank of the Vistula ready to give the Germans another big defensive problem. Further north the Third White Russian Army is poised in East Prussia, augmented by other Soviet troops released from the Baltic campaign.

Burnell Myers Is Fined After Crash

Burnell J. Myers, Littlestown R. 2, paid a \$10 fine and costs before Justice of the Peace H. G. Blocher, Littlestown, on a charge of reckless driving after an automobile accident Saturday night about one mile north of Littlestown.

Myers ran into the left side of an automobile driven by Mrs. Sarah M. Rang, Littlestown R. 1, as she attempted to make a left turn at a township road intersection, state police reported today. Damage to Myers' automobile was estimated at \$75 while that to Mrs. Rang's car amounted to about \$50. Officer George J. Evanko, of the local state police substation, investigated the accident.

The Germans tightened their defenses overnight in an effort to check the U. S. Third Army driving up from the south. Presently at least, Houffalize was the hinge of German defenses.

Capture Many Towns

Overnight, two dozens or more towns were captured including Tetingen, three miles inside Germany's Saarland opposite Luxembourg.

Supreme headquarters said the enemy was pouring reinforcements into the middle Saar and upper Alsace plain battlefields, where their earlier offensive thrusts had been brought to a standstill.

The first Army took Dinex on the Liege highway two miles north of Houffalize.

Between Malmédy and Stavelot along the northeast side of the bulge, the First Army captured Ligneville, 6 1/2 miles northwest of St. Vith and four miles south of Malmédy. Beaumont was reached and Coulee, six miles northwest of St. Vith, was taken.

Near German-held Bovigny, 10 miles northeast of Houffalize, the Americans captured Baslain, Montel-Ban and Halconreux, all in an arc around the larger town. The Houffalize-St. Vith highway, last major traffic artery in the bulge, was cut yesterday and being over-run today.

Destroy 6 Tanks

Nedrin, five miles southeast of Laroche, fell after scant resistance. A cluster of nearby places were taken including Petit Mornont, Grand Mornont, Filly and Ollomont. Also captured was Wibrin, four miles northwest of Houffalize. The town toppled after six of 12 defending German tanks were destroyed. Nearby Wilonge also was taken.

On the south side of the bulge, Lt. Gen. George S. Patton's Third Army was held to less spectacular advances.

His Sixth Armored Division thrust a mile ahead to Michamps, 4 1/2 miles northeast of Bastogne. Infantry edged a quarter mile into woods 3 1/2 miles northwest of the Luxembourg town of Wilz.

Just north of the Hagenau forest area of northeast France, the Germans launched another attack on the Hatten area where Lt. Gen. Alexander M. Patch's Seventh Army attempted to halt enemy attempts to break through Magnot line positions. Four Nazi tanks broke into Hatten last night, but had been driven off by midnight.

Screen Of Tanks

Field Marshal Von Rundstedt strove to hold St. Vith, where two railroads and seven important highways meet four miles west of the German frontier. He sent over 25 tanks, lightly supported by infantry, against Hodges' men at Thirimont, and these were badly mauled in two engagements during darkness.

The Americans after cutting the Houffalize-St. Vith road threatened to sever another from Vielsalm to Chervin.

The Germans were fighting on the north behind strong screens of anti-tank guns painted white and hidden in snow drifts.

West of the Laroche-Bertogne road, only German stragglers and a few suicide squads remained as British forces and U. S. Third Army troops fanned through the entire (Please Turn to Page 2)

WAR REACHES SEVERE CRISES AT SAME TIME

By DEWITT MACKENZIE  
(Associated Press War Analyst)  
Our global war has, perhaps more by design than by chance, reached two of its greatest crises simultaneously—the inauguration of the huge Allied squeeze on Hitlerdom, and the successful launching of the invasion of Luzon, key Philippine island.

The first of these operations represents the real beginning of the concerted Allied drive to administer the coup de grace to Germany. The second when successfully completed will have established the Allies on the essential base (Luzon) from which they can direct their combined might against Japan's ill-gained conquests and the Mikado's own domains.

Just as a guess, the two might be completed about the same time. That is, the Pacific Allies may have conquered Luzon and be ready to begin the decisive offensive just as their European colleagues have made the "kill." Should this happen it would be a most gratifying development, since it would release the vast Allied striking power in Europe for the launching of the all-out onslaught of Japan.

**Need Allied Accord**  
Thus we can say that the Allies are making solid progress which will continue with increasing momentum so long as the home-fronts safeguard it. Our main concern right now isn't so much military as in the unhappy thought that the current mutual sharp-shooting by self-appointed correctors among the citizens of the Allied countries may knock the "United" out of the "United Nations."

The idea that it's a good thing for private citizens of Allied Nations to get adverse criticisms of one another "off their manly chests," as someone has put it, isn't a sound one. Probably government representatives of the big three will have some blunt talks, and that may be all to the good, but unofficial sharp-shooting does more damage than all the hands-across-the-sea diplomacy can repair in generations. It's a false notion to think that you can say nasty things to another fellow and not make him dislike you ever after.

But to get back to our muttoms, the great Red drive against the German vultures in Poland, which has opened so auspiciously, has put a new complexion on European war. For the first time we now have the Hitlerites under full pressure from both main fronts, and simultaneously menaced by the Russian offensive through Hungary towards Austria. We soon shall have a good idea of how much pressure can be stood by the house that Adolf built.

**Nazi Plans Shattered**  
On the erupting western front Nazi Field Marshal von Rundstedt's plans seem to have gone awry. Having failed in his efforts to break through and capture Liege, and maybe other vital Allied bases, he showed signs of intending to try to hold his position in the Belgian bulge while he lunged at other points in the Allied line which had been weakened by the withdrawal of troops to depend the bulge. But the great salient is being closed about him and he's having to make a costly retreat, though with fierce defensive action which we may expect to continue.

If the Allies can keep up the pressure they will compel him to withdraw clear back to his previous positions in his Siegfried line defenses. Much will depend on the weather, which recently has been so foul that the fighter-bombers planes have been kept grounded most of the time. Clearing skies at the weekend, however, permitted us to resume strafing and bombing of the retreating enemy with disastrous results to him.

If we should be blessed with good weather, von Rundstedt's losses will be grave indeed, both in men and material. He may arrive back in his Rhenish defenses in greatly weakened condition and incapable of making a long stand west of the river.

**Pvt. Tom Ziegler On Italian Front**  
(Special To The Times)  
With the Fifth Army, Italy (By Mail)—Pvt. Thomas S. Ziegler, son of Mrs. Marie Armstrong Ziegler, 33 East Lincoln avenue, and husband of Mrs. Ruth (Shealer) Ziegler, Baltimore street, is a member of the 339th "Polar Bear" Regiment, which recently shattered the vitals of the vaunted Gothic line, taking Italian peaks as high as 3,400 feet east of Highway 65 and Futa Pass.

The 339th Infantry regiment is in the 85th "Custer" division, part of Lieutenant General Lucian K. Truscott, Jr.'s, Fifth Army.

The 339th landed in Italy last March 15 after a training period in North Africa, and was the first unit of the 85th Division in the line when it was committed to action the following day.

SHOOT WOMEN, TAKES OWN LIFE

Philipsburg, Jan. 15 (AP)—A 56-year-old man shot and wounded two young women and then killed himself today, at nearby Morrisdale, Edwin Gustafson, assistant chief of police of Philipsburg reported.

Gustafson identified the man as Willard G. Strange, and the young women as May Dullen, 21, and Virginia Dullen, 19, sisters.

The young women were brought to the Philipsburg state hospital where their condition was stated to be good. Virginia Dullen was shot in the hip and thigh and her sister, May, in the abdomen.

Gustafson said the young women were shot after May Dullen refused to marry Strange, who lives about a mile from her home. The officer said that when the man went to the Dullen home, Strange and May had words, and the shooting followed. Virginia Dullen, Gustafson said, was wounded in trying to take the pistol away from Strange.

After the shooting, Strange ran from the house and a short time later was found dead at his own home, one side of his head blown off by a shotgun charge. One end of a piece of string had been attached to the trigger of the gun and the other end was looped around his right foot.

**WORLD'S BIGGEST CLEARANCE SALE**  
Washington, Jan. 15 (AP)—Plans for the world's biggest clearance sale—the disposal of an estimated \$100,000,000 worth of surplus government property—shaped into firmer outline today following two significant week-end developments.

Bernard M. Baruch, President Roosevelt's informal economic consultant, recommended "self-containment" for the United States and retention of government control over stockpiles of raw materials obtained at great expense from faraway corners of the globe.

And, with the Senate set for all-but-automatic confirmation of former Senator Guy M. Gillette as a member of the surplus property board, sentiment was mounting in favor of his designation as chairman.

The decision is President Roosevelt's, but it is an open secret that the Iowa Democrat's former colleagues favor him for the chairmanship over either of the other two members, former Governor Robert A. Hurley of Connecticut or Lt. Col. Edward Heller of San Francisco.

**CHILD IS BAPTIZED**  
Richard F. Ramsey, nine weeks old son of Petty Officer and Mrs. Richard F. Ramsey, Sr., was received in Holy Baptism at the Prince of Peace Episcopal church, Sunday.

The Rev. A. G. Van Elden officiated. Sponsors were William Weitzel, Frank Pope and Miss Sally MacPherson. The baby is a fifth generation child. His paternal grandparents, great grandparents and great, great grandmother reside in Washington Court House, Ohio. Petty Officer Ramsey is serving with the U. S. Coast Guard. Mrs. Ramsey is the former Miss Virginia MacPherson, Gettysburg.

**Germans Faking Yankee Newscasts**  
London, Jan. 15 (AP)—The Germans have added fake American and French programs to their phony broadcasts, which recently included a simulated BBC news report slurring Americans and giving all credit to Field Marshal Montgomery for checking the Nazi Belgium offensive.

The January meeting of the Triology club will be held Wednesday afternoon with Mrs. W. Clayton Jester, Heidelsburg road.

Clayton W. Jester, Biglerville R. D., is on a business trip of several days to Sunbury and Danville.

Miss Verna M. Newell, York, was among those who visited at the home of Mr. and Mrs. Frank A. Newell, Hunterstown, Sunday.

Mr. and Mrs. Stanton Thomas, of Baltimore, spent the week-end with Mr. Thomas' parents, Mr. and Mrs. Nyle Thomas, of Biglerville.

Mr. and Mrs. Clair Shillito and son, Larry, Biglerville, spent Saturday in York with Mrs. Shillito's mother, Mrs. Ruth Anderson.

Willis Black is reported seriously ill at his home in Aspers.

Pvt. Russell Hollabaugh is spending a furlough with his parents, Mr. and Mrs. Howard Hollabaugh, Aspers. Pvt. Hollabaugh, who has seen service in England, France, Africa and Sicily for over two years, was hospitalized in England before returning home due to malaria fever.

Mrs. Grover C. Myers, Gardners, is spending some time in Essex, Md., with her son and daughter-in-law, Mr. and Mrs. Glenn C. Myers.

**Unanimous Vote Clause Embarrassing**  
Hot Springs, Va., Jan. 15 (AP)—The Institute of Pacific Relations found itself embarrassed in the start of its discussions on collective security for the reason that the USSR in the Dumbarton Oaks plan for world security demands a unanimous vote from the Big Four before world security forces would move against an aggressor.

The Oaks plan has been criticized because the provisions, so far, would permit, interpreters say, any of the big powers to commit an act of aggression and yet sit in on the world security council and vote against any use of world security forces to put down any such war.

Institute round tables, the press was told by Percy Corbett, of the institute staff, felt that any such arrangement could prove dangerous to world peace. It remains one of the more vexing problems to be solved by the next Churchill-Roosevelt-Riallin conference.

**Report Threat To Kidnap Betty Grable**  
-Hollywood, Jan. 15 (AP)—A sketchy account of an alleged abduction plot flickered across the Hollywood news scene today, together with filmland's inevitable report of approaching divorce, and sundry health notes.

Betty Grable's studio disclosed, in answer to newsmen's queries, that the pulchritudinous actress had received a kidnap threat some time ago. However, the incident is closed, since "the danger is now passed," a studio spokesman added.

On the domestic front, Attorney Jerry Giesler announced that Mrs. Jack Oakie had retained him to discuss a property settlement with the comedian's lawyer, preparatory to possible filing of a divorce action. Oakie and his wife, the former Venita Varden, ex-follies girl, separated seven years ago but became reconciled.

**Transport Command Flies 30,000,000 Miles**  
London, Jan. 15 (AP)—The European division of the U. S. Air Transport Command completed two years of operations yesterday in which it flew 30,000,000 miles and carried 183,000 passengers and 22,000,000 pounds of cargo.

An official report stated that planes of the division, now commanded by Brig. Gen. Earl Hoag, flew 5,000,000 miles without a fatal accident and removed 14,000 American wounded from Europe to the United States in the past year.

**News Briefs**  
Washington, Jan. 15 (AP)—Senator Wheeler (D., Mont.) calling for immediate formation of a United Nations political council, contended today that Europe is being forced into the "embrace" of Russia through "power politics."

Eric, Pa., Jan. 15 (AP)—Some 400 soldiers, winding up their job of opening snow-blocked roads to war plants, were leaving Eric today for their home camps in New York and Pennsylvania. The snow-removal program freed more than \$3,000,000 worth of critical war materials hemmed-in by the winter's accumulation of six feet of snow.

Washington, Jan. 15 (AP)—Congress was called upon today to substitute higher industrial wages for pending work-or-fight legislation. Quakerism for the American Federation of Labor and the Socialist party told the House Military Committee that breaking the Little Steel Wage formula provides the best means of solving manpower problems.

**Down 232 Planes**  
The Luftwaffe sent up 700 planes Sunday in a desperate defense and had at least 232 of them shot down to Allied losses of 57 bombers and fighters.

Allied air forces from fighters to heavy bombers ranged from the snow-drifted battlefield to Berlin itself.

Hundreds of American warplanes scoured the lines of retreat yesterday, hitting some Nazi convoys lined up bumper to bumper.

If the favorable weather continues, Allied air power may be able to wreck great quantities of Marshal von Rundstedt's armor and transport before they reach the German border.

Meanwhile in northeastern France the Germans uncorked new attacks against U. S. Seventh Army lines eight miles inside Aachen north of Strasbourg. Despite the use of tanks and flamethrowers, the enemy blows made little or no headway, late front dispatches said.

German rearguards in the Belgian salient were being hurled against U. S. First Army troops battling seven miles north of St. Vith, through which Von Rundstedt's convoys were hurrying toward the Reich border, four miles to the east.

Nearly 4,000 Allied planes took part in the aerial warfare yesterday, hitting Germany's oil and communication resources as well as plastering the Nazis in the Belgian bulge.

**HOME FROM PACIFIC**  
Los Angeles, Jan. 15 (AP)—En route to their homes today on their first U. S. furloughs in two years were many of the 3,000 South Pacific battle veterans who reached this port of embarkation aboard a large naval transport. There were 25 Australian wives of service men, and the passenger list included 10 babies.

Horace Waybright, son of Mr. and Mrs. Clarence J. Waybright, Freedom township, has won two first places in production contests in this area and sixth place in the state contest sponsored by the Production Credit association.

Richard C. Lighter, county vocational education adviser, announced this morning that young Waybright won first place in this production credit district, which includes six counties, and also took first for Adams county alone. For the district award he will receive a \$25 war bond and for the county prize he wins \$5.

The county youth graduated from Gettysburg high school last spring and had started the farm accounts project before his graduation. He completed the year's work in December.

The account books were scored during Farm Show week at Harrisburg last week by a special committee of the Production Credit association and the state Department of Education.

Included in the district from which young Waybright took first honors were the counties of Adams, York, Perry, Fulton, Franklin and Cumberland.

**Veteran Killed In Traffic Accident**  
Chambersburg, Pa., Jan. 15 (AP)—Paul E. Hockenberry, 22, of nearby Newburg, was killed last night when struck by a car near Shippensburg. State Police Sgt. J. L. Pfeffer said that he was holding Robert McClenas, 47, of Shippensburg, pending an investigation by Franklin county Coroner S. D. Shull.

Hockenberry, married and the father of a seven-month-old baby, was recently discharged from the Army.

## WAR REACHES SEVERE CRISES AT SAME TIME

By DEWITT MACKENZIE  
(Associated Press War Analyst)

Our global war has, perhaps more by design than by chance, reached two of its greatest crises simultaneously—the inauguration of the huge Allied squeeze on Hitlerdom, and the successful launching of the invasion of Luzon, key Philippine island.

The first of these operations represents the real beginning of the concerted Allied drive to administer the coup de grace to Germany. The second when successfully completed will have established the Allies on the essential base (Luzon) from which they can direct their combined might against Japan's ill-gained conquests and the Mikado's own domains.

Just as a guess, the two might be completed about the same time. That is, the Pacific Allies may have conquered Luzon and be ready to begin the decisive offensive just as their European colleagues have made the "kill." Should this happen it would be a most gratifying development, since it would release the vast Allied striking power in Europe for the launching of the all-out onslaught of Japan.

### Need Allied Accord

Thus we can say that the Allies are making solid progress which will continue with increasing momentum so long as the home-fronts safeguard it. Our main concern right now isn't so much military as it is the unhappy thought that the current mutual sharp-shooting by self-appointed correctors among the citizens of the Allied countries may "knock the United" out of the "United Nations."

The idea that it's a good thing for private citizens of Allied Nations to get adverse criticisms of one another "off their manly chests," as someone has put it, isn't a sound one. Probably government representatives of the big three will have some blunt talks, and that may be all to the good, but unofficial sharp-shooting does more damage than all the hands-across-the-sea diplomacy can repair in generations. It's a false notion to think that you can say nasty things to another fellow and not make him dislike you ever after.

But to get back to our muttoms, the great Red drive against the German vultures in Poland, which has opened so auspiciously, has put a new complexion on European war. For the first time we now have the Hitlerites under full pressure from both main fronts, and simultaneously menaced by the Russian offensive through Hungary towards Austria. We soon shall have a good idea of how much pressure can be stood by the house that Adolf built.

### Nazi Plans Shattered

On the erupting western front Nazi Field Marshal von Rundstedt's plans seem to have gone awry. Having failed in his efforts to break through and capture Liege, and maybe other vital Allied bases, he showed signs of intending to try to hold his position in the Belgian bulge while he lunged at other points in the Allied line which had been weakened by the withdrawal of troops to depend the bulge. But the great salient is being closed about him and he's having to make a costly retreat, though with fierce defensive action which we may expect to continue.

If the Allies can keep up the pressure they will compel him to withdraw clear back to his previous positions in his Siegfried line defenses. Much will depend on the weather, which recently has been so foul that the fighter-bombers planes have been kept grounded most of the time. Clearing skies at the week-end, however, permitted us to resume strafing and bombing of the retreating enemy with disastrous results to him.

If we should be blessed with good weather, von Rundstedt's losses will be grave indeed, both in men and material. He may arrive back in his Rhineland defenses in greatly weakened condition and incapable of making a long stand west of the river.

## Pvt. Tom Ziegler On Italian Front

(Special To The Times)

With the Fifth Army (By Mail)—Pvt. Thomas S. Ziegler, son of Mrs. Marie Armstrong Ziegler, 33 East Lincoln avenue, and husband of Mrs. Ruth (Shealer) Ziegler, Baltimore street, is a member of the 339th "Polar Bear" Regiment, which recently shattered the vitals of the vaunted Gothic line, taking Italian peaks as high as 3,400 feet east of Highway 65 and Futa Pass.

The 339th Infantry regiment is in the 85th "Custer" division, part of Lieutenant General Lucian K. Truscott, Jr.'s, Fifth Army.

The 339th landed in Italy last March 15 after a training period in North Africa, and was the first unit of the 85th Division in the line when it was committed to action the following day.

## MINISTERS HIT CONSCRIPTION

The Littlestown Ministerium, at its regular meeting at the home of the Rev. Kenneth D. James, Littlestown, last week, drew up resolutions voicing opposition to legislation providing for permanent peace-time compulsory military training for American young men. A letter, signed by the ministers, was ordered sent to President Roosevelt, the Pennsylvania senators and Congressmen Chester H. Gross.

In the letter the ministers refer to the proposed conscription as a serious evil which will menace American Democracy. "Conscription robs the individual of freedom to make personal decisions," the ministers claim. It would jeopardize the hope of creating a spirit of confidence among the nations of the world, they assert.

The letter points out that "religious liberty is the cornerstone of our democracy. Our Christian faith is that God has created man a free moral agent to live in peace with his fellowman. Peacetime military conscription is a blow to all of this," the resolution concluded.

The president, the Rev. Theodore Woodrow Boltz, presided at the meeting which was attended by the Rev. John C. Brumbaugh, pastor of Christ Reformed church; the Rev. Wallace J. Cummings, pastor of Centenary Methodist church, and the Rev. Mr. James, pastor of St. John's Lutheran church and the secretary-treasurer of the ministerium. It was decided that the annual exchange of pulpits will take place the first Sunday morning in Lent.

## SHOOTS WOMEN, TAKES OWN LIFE

Philipsburg, Jan. 15 (AP)—A 56-year-old man shot and wounded two young women and then killed himself today, at nearby Morrisdale, Edwin Gustafson, assistant chief of police of Philipsburg reported.

Gustafson identified the man as Willard G. Strange and the young women as May Dullen, 21, and Virginia Dullen, 19, sisters.

The young women were brought to the Philipsburg state hospital where their condition was stated to be good. Virginia Dullen was shot in the hip and thigh and her sister, May, in the abdomen.

Gustafson said the young women were shot after May Dullen refused to marry Strange, who lives about a mile from her home. The officer said that when the man went to the Dullen home, Strange and May had words, and the shooting followed. Virginia Dullen, Gustafson said, was wounded in trying to take the pistol away from Strange.

After the shooting, Strange ran from the house and a short time later was found dead at his own home, one side of his head blown off by a shotgun charge. One end of a piece of string had been attached to the trigger of the gun and the other end was looped around his right foot.

## "Ag" Teachers To Meet Wednesday

The monthly meeting of the vocational agriculture teachers of the county high schools will be held Wednesday evening at 7 o'clock in the agriculture rooms at Biglerville high school, Richard C. Lighter, county vocational educational adviser, announced today.

General business will be taken up during the meeting and the closing of 1944 project records and accounts will be discussed. The wives of the "ag" teachers will meet with Mrs. Cecil Snyder, wife of the Biglerville agricultural teacher, during the instructors' session.

## WORLD'S BIGGEST CLEARANCE SALE

Washington, Jan. 15 (AP)—Plans for the world's biggest clearance sale—the disposal of an estimated \$100,000,000,000 worth of surplus government property—shaped into firmer outline today following two significant week-end developments.

Bernard M. Baruch, President Roosevelt's informal economic consultant, recommended "self-containment" for the United States and retention of government control over stockpiles of raw materials obtained at great expense from faraway corners of the globe.

And, with the Senate set for all-but-automatic confirmation of former Senator Guy M. Gillette as a member of the surplus property board, sentiment was mounting in favor of his designation as chairman.

The decision is President Roosevelt's, but it is an open secret that the Iowa Democrat's former colleagues favor him for the chairmanship over either of the other two members, former Governor Robert A. Hurley of Connecticut or Lt. Col. Edward Heller of San Francisco.

### CHILD IS BAPTIZED

Richard F. Ramsay, nine weeks old son of Petty Officer and Mrs. Richard F. Ramsay, Sr., was received in Holy Baptism at the Prince of Peace Episcopal church, Sunday. The Rev. A. G. Van Elden officiated. Sponsors were William Weitzel, Frank Pope and Miss Sally MacPherson. The baby is a fifth generation child. His paternal grandparents, great grandparents and great-grandmother reside in Washington Court House, Ohio. Petty Officer Ramsay is serving with the U. S. Coast Guard. Mrs. Ramsay is the former Miss Virginia MacPherson, Gettysburg.

## Germans Faking Yankee Newscasts

London, Jan. 15 (AP)—The Germans have added fake American and French programs to their phony broadcasts, which recently included a simulated BBC news report slurring Americans and giving all credit to Field Marshal Montgomery for checking the Nazi Belgium offensive.

A station imitating an official AEF program was on the air last night. It played popular music and then "news" reports of heavy losses to U. S. divisions.

### RED CROSS GUEST

## Observes Her 88th Birthday

Today finds Mrs. James Blocher, long-time resident of Bendersville, at the 88th milestone. This means that my old friend has seen this great country of ours emerge, as it were, from its swaddling clothes to become the most powerful nation on earth.

Back in 1857, the year in which she was born, James Buchanan, Pennsylvania's one and only contribution to the Presidency, had just entered the White House; Lincoln and the Civil War were before us, steam and electricity were in their infancy, and the automobile, airplane, and radio were merely fanciful dreams.

Mrs. Blocher has had the rare privilege of living through the most exciting, momentous, and interesting period of our entire history. And, too, she has been blessed with good health, a devoted family, and a host of friends—a rich blessing, indeed, and the writer joins her legion of well-wishers in Happy Birthday Greetings. May she have many, many returns of her anniversary.—Leighton C. Taylor.

## Walter Rothensies Resigns U. S. Post

Philadelphia, Jan. 15 (AP)—Walter J. Rothensies, collector of internal revenue here, announced today he was resigning effective Jan. 31, to re-enter private business. (A Washington dispatch said the resignation has been accepted by Secretary Morgenthau.)

Rothensies said he would return to York county but declined to say whether he would become associated with Louis J. Appell, York county banker and businessman.

Rothensies has been collector here for the past 10½ years.

Mr. Rothensies is well-known in Gettysburg and Adams county. He was district secretary for Ex-Congressman Harry L. Haines before he was appointed to the Internal Revenue Collector's post.

## FDR Nominates New Ambassador

Washington, Jan. 15 (AP)—President Roosevelt today nominated Edwin C. Wilson, veteran American diplomat, to be ambassador to Turkey.

The action filled the last major diplomatic post of this government which was still open in the European area.

Wilson, who was the President's representative at Algiers when that was headquarters for the French Committee of Liberation and who subsequently served as a member of the Mediterranean Commission, is now director of the State department's Office of Special Political Affairs.

The Turkish assignment formerly was held by Laurence Steinhardt, who was named ambassador to Czechoslovakia some weeks ago.

## Sportsmen Feed Wild Life In Snow

Emporium, Pa., Jan. 15 (AP)—The Cameron Rod and Gun club braved heavy snows in Cameron county mountains yesterday to provide food for wild life.

W. G. Munsell, veteran sportsman who led one of 10 crews, said "because of the heavy snows of the past month it was impossible to get into the woods very deep, the men had to hike to get food where it would do the most good."

The men cut young poplars for deer, trimmed wild apple trees, and left grain, scraps and bread for fowl.

## Seeking Share Of Funds For Towns

McKeesport, Pa., Jan. 15 (AP)—Mayors and councilmen from 12 third class counties are expected to meet here tonight to open a campaign to persuade the state to share with municipalities money collected on special taxes.

Mayor Frank Buchanan of McKeesport, said most communities want to avoid nuisance taxes.

The officials represent the South-western district of the League of Third Class cities. Mayor Buchanan will preside.

### Down 232 Planes

The Luftwaffe sent up 700 planes Sunday in a desperate defense and had at least 232 of them shot down to Allied losses of 57 bombers and fighters.

Allied air forces from fighters to heavies ranged from the snow-drifted battlefield to Berlin itself.

Hundreds of American warplanes scoured the lines of retreat yesterday in the best flying weather in days, riddling some Nazi convoys lined up bumper to bumper.

If the favorable weather continues, Allied air power may be able to wreck great quantities of Marshal von Rundstedt's armor and transport before they reach the German border.

Meanwhile in northeastern France the Germans uncoiled new attacks against U. S. Seventh Army lines eight miles inland at Acee north of Strasbourg. Despite the use of tanks and flamethrowers, the enemy blows made little or no headway, late front dispatches said.

German rearwards in the Belgian salient were being hurled against U. S. First Army troops battling seven miles north of St. Vith, through which Von Rundstedt's convoys were hurrying toward the Reich border, four miles to the east.

Nearly 4,000 Allied planes took part in the aerial warfare yesterday, hitting Germany's oil and communication resources as well as plastering the Nazis in the Belgian bulge.

# 32 GERMAN PLANES ARE LOST IN RAID

London, Jan. 15 (AP)—U. S. Eighth Air Force Fortresses and Liberators raided Germany by daylight today, continuing the mighty new aerial offensive which blasted at prime Nazi oil centers in a four-hour period ending last night. An official announcement said American long range bombers were over Germany again at noon today. The RAF Heavies "in very great strength" heaped tons of explosives on the Leuna Synthetic oil plant at Merseburg and on a fuel depot at Chemnitz last night. The use of the quoted phrase in air industry communiques generally indicates that a force of more than 100 bombers participated. A smaller force of raiders struck secondary blow at the German oil plant.

**Critical Reserves**  
Yesterday great armadas of Allied planes blasted Germany's oil sources and communications, and the best flying weather in days urged the retreating Nazis in flight. Allied headquarters said German planes were shot down, and the air while Allied losses were not as 53 planes, including 19 U. S. heavy bombers. A special order of the day from Gen. Carl Spaatz, commander of the U. S. Strategic Air Forces in Europe, informed men of the U. S. Eighth Air Force assigned to attack German oil plants and depots at German fuel reserves were now critical. More than 900 heavy bombers and an almost equal number of fighters participated. The German air force rose in strength to protect its oil supply, but the British-based U. S. planes picked out 189 of them—149 fell to fighter planes which set a record for the Eighth Air Force, previous record for a single day 134.

# MARY PICKFORD BACK IN MOVIE BUSINESS AGAIN

By BOB THOMAS  
(AP New Features Writer)  
Hollywood, Jan. 15 (AP)—Recent talk about the innovation of women producers in Hollywood does not impress Mary Pickford, who has been producing pictures since 1918. "America's Sweetheart" is at it in after a lapse of several years. "executive producer," she is indulging a treatment with her producer, Sam Coslow, for the film of Mary Martin's Broadway hit, "The Touch of Venus." After a storming tour for the March Dimes, she will return to finish her picture for shooting. "Times Have Changed" Getting back to producing is like riding a bike again," she declared. "I'm a little wobbly at first, but I'll be sailing along pretty soon." Miss Pickford finds picture making any day is much more complex than in old days, particularly in paper work and details, which she detests. In instance, her first production, "Caddy Long Legs," cost \$250,000 in 1928, a monumental sum in those days. "Venus" will run over two million, not including tremendous advertising costs. Miss Pickford, an efficient businesswoman after years of handling her affairs, works with her desk clear and, incidentally, with her pen.

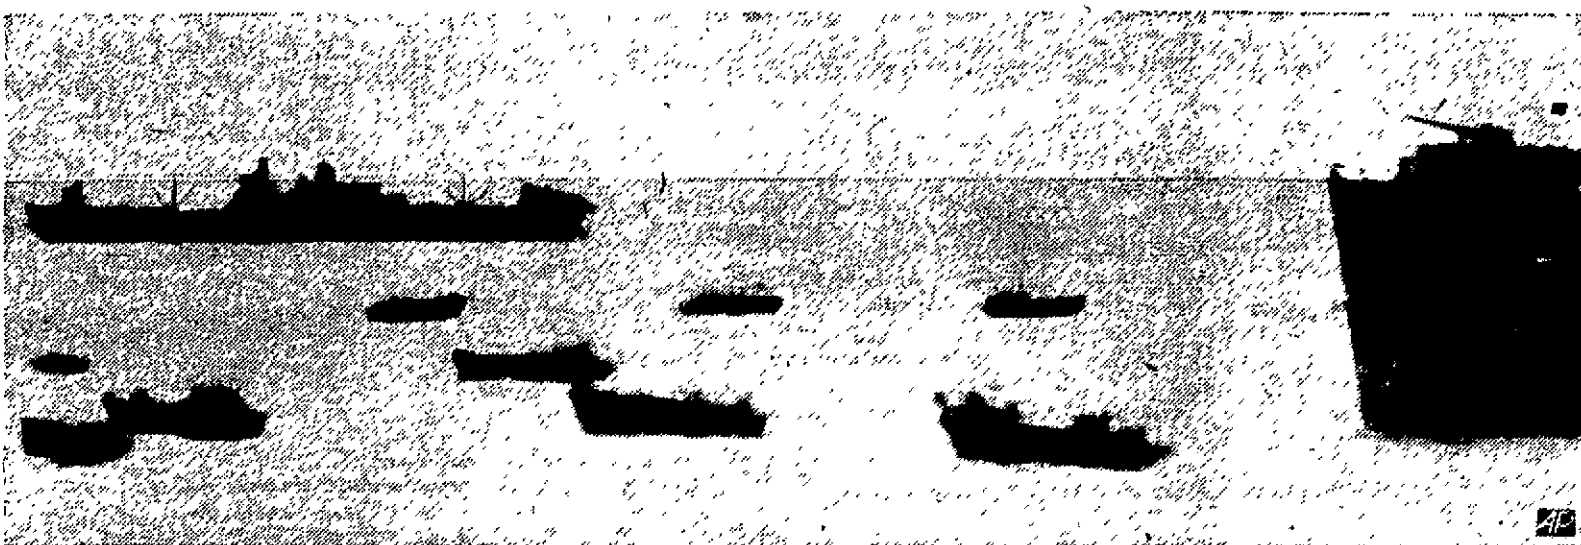

# Sgt. Dentler Gets Good Conduct Medal

(Special To The Gettysburg Times)  
The 15th Army Air Force in Italy—Major Daniel P. Dentler, 26, of Biglerville, Pa., has been awarded the good conduct medal, according to an announcement made recently at the 15th Air Force heavy bomber group in Italy. In the words of the citation which accompanied the award, Sgt. Dentler's work has "demonstrated fidelity, thoroughness and exact performance of duty, efficiency through capacity to produce desired results." Also mentioned that his "behavior has been such to deserve emulation." Sgt. Dentler, operations chief of the 15th Air Force, is a member of a B-24 Liberator bomber group commanded by Thomas W. Steed, of Etowah, Ga. The group has flown more than 165 combat missions against strategic targets in Southern Europe and the Balkans. Sgt. Dentler entered the service in 1941. # BATTLES SWEEP 600 MILES OF EASTERN FRONT

London, Jan. 15 (AP)—Battles are sweeping the entire 600 miles of the eastern front from Budapest in Hungary to Memel on the Baltic, the German high command said today, with the Russians launching new offensives in Poland and East Prussia.

The German communiques said the Russians had opened the "big winter battle between the Carpathians and Memel."

Altogether, the Russians were storming westward in seven different sectors. New Soviet attacks, sprung following drumfire artillery barrages, were launched in Poland from Russian bridgeheads at Pulawy and Varka south of Warsaw, from the Vistula-Bug triangle north of Warsaw, and Narow bridgeheads south of East Prussia, the Germans said.

In addition the Russians were attacking between Ebenrode and Schlossberg in East Prussia, toward Krakow in Southern Poland and in Southern Slovakia north of Budapest.

## Polish Bridgehead

The Germans admitted that Marshal Ivan S. Konev's offensive in Southern Poland had forged a strong bridgehead over the Nida in Southern Poland, where last night's Moscow communique announced a penetration to within 64 miles of Germany's Silesian border and 32 miles from Krakow, ancient Polish capital.

While the Russians had not yet confirmed the launching of other new attacks, an Associated Press dispatch from Moscow said there were signs "the Red Army may shortly engage every division on the eastern front in some of the heaviest battles of the Russian-German war, eclipsing perhaps anything the Soviets have yet thrown against the Nazis."

"Long preparation presumably has been completed for a resumption of operations against the Germans in East Prussia and Northern Poland."

## New Red Drives

The new Russian attacks in South Poland described by the Germans were from the Pulawy bridgehead over the Vistula, 68 miles southeast of Warsaw and 130 miles northeast of Krakow, and the Varka bridgehead over the Vistula 30 miles south of Warsaw.

Warka on the Pilica, a tributary of the Vistula, is 75 miles east of Lodz, large industrial center in Western Poland, and 25 miles north of Radom, scene of a major Polish defeat in 1939. Pulawy is 35 miles east of Radom.

Above Warsaw from the Vistula-Bug triangle the Russians presumably were striking at Modlin, strategic crossing at the confluence of the Bug and Vistula where outnumbered Poles fought a heroic battle in 1939 and delayed the final fall of Warsaw.

The Russians last were reported on the Bug 10 miles east of Modlin.

Further to the northeast, the Germans said, the Russians were attacking from their Narow bridgeheads on both sides of Osternburg, where they have been about 25 miles south of the East Prussian border.

Bobbie is now none the worse for his self-administered medicine.

Shortly before the Christmas holiday, the people of a western city heard the wail of fire sirens. At first they thought nothing of it. The sirens whine every day in large cities. But this was different. Rig after rig wheeled out of the station houses and went

striking through the streets. First aid cars and police sirens screamed in the wake of the fire engines. The news spread that a school was burning—a grade school housing four hundred students. Foreboding and horror clutched at thousands of hearts. Disaster and tragedy were written on thousands of faces. But fortunately, cool thinking and rigid fire drills paid off. Four hundred children returned home safely. An entire city breathed a sigh of thankfulness.

In that narrowly averted tragedy there is a lesson. The school was a firetrap, yet lethargy and unwillingness to add a few dollars to local tax bills kept

the school in use. Throughout the nation similar schools are being used every day.

If we are so careless as to permit a single child to attend school in a building that by all standards of modern construction is unsafe, what can we expect in other aspects of fire prevention?

Thousands of persons die in the flames of burning buildings each year. Each year responsible authorities strive harder to drive home the simple lesson of caution. The people of at least one city which nearly lost hundreds of its youth through unforgivable negligence, may now realize how much remains to be done.

# WIDE APPROVAL ON PROVISIONAL COUNCIL PLAN

By JACK BELL

Washington, Jan. 15 (AP)—Bipartisan approval sprang up today for a proposal that the United Nations form a provisional council to handle world political problems.

The plan is the brainchild of Chairman Connally (D-Tex.) of the senate foreign relations committee. Under it, the council would work to settle controversial issues among the Allies pending ratification of the treaty for a peace-keeping organization.

## To Act Until Ratification

The chairman of the senate foreign relations committee plans to lay his idea before Secretary of State Stettinius this week. Supporters of it immediately suggested that President Roosevelt take the proposal along when he meets Prime Minister Churchill and Premier Stalin.

Senator Ball (R-Minn.) told a reporter that if the plan is accepted it might constitute a long step toward bringing about a just peace.

It is Connally's idea that when the full-dress diplomatic conference agrees, probably this spring on the terms of a world security organization, that it set up the provisional council to act in an advisory capacity while the long process of treaty ratification is under way.

## Power of Review

He said that while the temporary group would have no force at its command, it would be backed by the weight of opinion of the United Nations in attempting to settle controversial issues on a multilateral rather than unilateral basis.

A suggestion by Ball that the temporary council be empowered to review unilateral decisions made before its formation was in line with a demand voiced in the senate last week by Chairman Vandenberg (R-Mich.) of the republican conference.

Many in the senate have begun to fear that a great many boundary questions and similar issues will be settled by separate agreements between nations before a world security organization can be set up.

# NEED MILEAGE GAS RECORD

All operators of passenger cars with basic "A" ration must have "mileage rationing records" to be eligible to apply for any other gasoline rations, the OPA pointed out today.

In the recent re-registration of basic "A" ration holders, each registrant was issued one of these mileage record forms. The form replaced the old tire rationing record, on which was kept a list of all gasoline rations issued to the vehicle. Without this important record form, no motorist may be issued a "B" or "C" supplemental ration, OPA emphasized.

Information has been received from local War Price and Rationing boards that many motorists did not understand the use of the record form and lost or destroyed theirs.

No supplemental rations or special or furlough rations for cars with basic "A" rations may be issued to an applicant who does not present his mileage rationing record with his supplemental gasoline application, OPA emphasized. In cases where a motorist was not issued a mileage rationing record, or it was lost or destroyed, he should immediately apply to his local board for a duplicate.

# SEA ROUTE TO CHINA IS LOST

U. S. Pacific Fleet Headquarters, Pearl Harbor, Jan. 15 (AP)—The Navy still had nothing further to report today on its bold South China sea thrust but a delayed flag-ship report declared the third fleet cut that vital Japanese empire life line with surprising ease.

In a report from Vice Adm. John S. McCain's carrier force dated Jan. 12 (Thursday, Jan. 11, Pearl Harbor and U. S. Time), Associated Press correspondent Rembert James said:

"Japan lost control of her vital South China sea routes today."

The enemy, he added, failed to challenge the carrier planes in the air as they attacked harbors, shipping, seaplane bases and airfields along the coast of French Indo-China.

Last official word here on the Third fleet's activities was in a Friday night communique reporting the attacks, which had sunk enemy warships and transports and damaged 13 others, were going into their second day.

Pacific fleet headquarters listed one light cruiser and several destroyers among the enemy vessels sunk. Others included 12 transports loaded with troops.

The American planes hit targets which were worked over by China-based Superfortresses yesterday, and at least 30 Japanese civilians were killed in the raid, the broadcast said.

## 232 GERMAN PLANES ARE LOST IN RAID

London, Jan. 15 (AP)—U. S. Eighth Air Force Portresses and Librators raided Germany by daylight today, continuing the mighty new Allied aerial offensive which blasted eight prime Nazi oil centers in a 36-hour period ending last night.

An official announcement said American long range bombers were over Germany again at noon today, after RAF Heavies "in very great strength" heaped tons of explosives on the Leuna Synthetic oil plant at Merseberg and on a fuel depot at Dulmen last night.

The German air force rose in strength to protect its oil supply, and the Britain-based U. S. planes knocked out 189 of them—149 falling to fighter planes which set a new record for the Eighth Air Force. The previous record for a single day was 134.

Bobbie is now none the worse for his self-administered medicine.

Shortly before the Christmas holiday, the people of a western city heard the wail of fire sirens.

At first they thought nothing of it. The sirens whine every day in large cities. But this was different. Rig after rig wheeled out of the station houses and went

shrieking through the streets. First aid cars and police sirens screamed in the wake of the fire engines. The news spread that a school was burning—a grade school housing four hundred students. Foreboding and horror clutched at thousands of hearts. Disaster and tragedy were written on thousands of faces. But fortunately, cool thinking and rigid fire drills paid off. Four hundred children returned home safely. An entire city breathed a sigh of thankfulness.

In that narrowly averted tragedy there is a lesson. The school was a firetrap, yet lethargy and unwillingness to add a few dollars to local tax bills kept

the school in use. Throughout the nation similar schools are being used every day.

If we are so careless as to permit a single child to attend school in a building that by all standards of modern construction is unsafe, what can we expect in other aspects of fire prevention?

Thousands of persons die in the flames of burning buildings each year. Each year responsible authorities strive harder to drive home the simple lesson of caution. The people of at least one city which nearly lost hundreds of its youth through unforgivable negligence, may now realize how much remains to be done.

## WIDE APPROVAL ON PROVISIONAL COUNCIL PLAN

By JACK BELL

Washington, Jan. 15 (AP)—Bipartisan approval sprang up today for a proposal that the United Nations form a provisional council to handle world political problems.

The plan is the brainchild of Chairman Connally (D-Tex.) of the senate foreign relations committee.

Under it, the council would work to settle controversial issues among the Allies pending ratification of the treaty for a peace-keeping organization.

### To Act Until Ratification

The chairman of the senate foreign relations committee plans to lay his idea before Secretary of State Stettinius this week. Supporters of it immediately suggested that President Roosevelt take the proposal along when he meets Prime Minister Churchill and Premier Stalin.

Senator Ball (R-Minn.) told a reporter that if the plan is accepted it might constitute a long step toward bringing about a just peace.

It is Connally's idea that when the full-dress diplomatic conference agrees, probably this spring on the terms of a world security organization, that it set up the provisional council to act in an advisory capacity while the long process of treaty ratification is under way.

### Power of Review

He said that while the temporary group would have no force at its command, it would be backed by the weight of opinion of the United Nations in attempting to settle controversial issues on a multilateral rather than unilateral basis.

A suggestion by Ball that the temporary council be empowered to review unilateral decisions made before its formation was in line with a demand voiced in the senate last week by Chairman Vandenberg (R-Mich.) of the republican conference.

Many in the senate have begun to fear that a great many boundary questions and similar issues will be settled by separate agreements between nations before a world security organization can be set up.

## Mild Weather In Most Of Nation

(By The Associated Press)  
Unusually mild weather and above normal temperatures prevailed today in western and southern states.

Texas had readings of 76 at Dallas and San Antonio while New Orleans had 69 and Miami 75.

The government weather bureau in Chicago said the mild spell was expected to continue.

The only cold area centered in New England which was heavily blanketed by snow ranging from 2 to 14 inches. Icy highways snarled traffic in New York. Additional snow was predicted for the area today. Temperatures ranged from 5 degrees to the low 20s.

## W. Wood's Daughter Gets Secretarial Post

Mrs. Wilson P. Dizard, Jr., daughter of the Rev. and Mrs. William W. Wood, former residents of Gettysburg, has accepted a \$4,000-a-year post as confidential secretary to Andrew G. Clauson, Jr., a member of the Staten Island, New York, board of education.

Mrs. Dizard, the former Lynn Margaret Wood, will assume her new duties January 25. At present she is employed by the Army Air Forces office in Manhattan. The Rev. Mr. Wood, chaplain of the Sailors Snug Harbor in New York, formerly was head football coach at Gettysburg college.

## 100 U. S. Fighters Down 24 Jap Planes

Chungking, Jan. 15 (AP)—Twenty-four Japanese planes were destroyed yesterday by 100 fighters of the U. S. 14th Air Force escorting heavy bombers in an attack on the Hankow waterfront, a communique announced today.

Four other enemy planes probably were destroyed and 33 damaged. Thirteen of the planes destroyed were shot down in air combat. Five U. S. planes were lost in this and other operations.

Washington, Jan. 15 (AP)—The Office of War Information said today:

"The government needs and asks its citizens in this 162nd week of the war to:

"Turn out all unnecessary or ornamental light to help avert shortages of coal essential to war production.

"Keep the temperature in homes at a 68-degree maximum. Live within your fuel oil rations; if you burn coal, conserve heat in every possible way.

"Keep on turning in kitchen fats. The two red points per pound are more important to you than ever; the fats still needed.

"Fill 34,925 jobs in 70 shipbuilding and ship repair yards now behind schedule on the production urgency list.

"Cancel your pleasure-traveling plans. Many railroad facilities now devoted to passenger use are critically needed to transport war materials."

New York, Jan. 15 (AP)—The 1945 March of Dimes campaign, to provide for an extension of the battle against infantile paralysis, is officially underway.

Basil O'Connor, president of the National Foundation for Infantile Paralysis, operating the campaign yesterday, said in a radio address over CBS that last year's epidemic—second worst in the nation's history—claimed 19,000 victims.

## NEED MILEAGE GAS RECORD

All operators of passenger cars with basic "A" rations must have "mileage rationing records" to be eligible to apply for any other gasoline rations, the OPA pointed out today.

In the recent re-registration of basic "A" ration holders, each registrant was issued one of these mileage record forms. The form replaced the old tire rationing record, on which was kept a list of all gasoline rations issued to the vehicle. Without this important record form, no motorist may be issued a "B" or "C" supplemental ration, OPA emphasized.

Information has been received from local War Price and Rationing boards that many motorists did not understand the use of the record form and lost or destroyed theirs.

No supplemental rations or special or furlough rations for cars with basic "A" rations may be issued to an applicant who does not present his mileage rationing record with his supplemental gasoline application, OPA emphasized. In cases where a motorist was not issued a mileage rationing record, or it was lost or destroyed, he should immediately apply to his local board for a duplicate.

## SEA ROUTE TO CHINA IS LOST

U. S. Pacific Fleet Headquarters, Pearl Harbor, Jan. 15 (AP)—The Navy still had nothing further to report today on its bold South China sea thrust but a delayed flag-ship report declared the third fleet cut that vital Japanese empire life line with surprising ease.

In a report from Vice Adm. John S. McCain's carrier force dated Jan. 12 (Thursday, Jan. 11, Pearl Harbor and U. S. Time), Associated Press correspondent Rembert James said:

"Japan lost control of her vital South China sea routes today."

The enemy, he added, failed to challenge the carrier planes in the air as they attacked harbors, shipping, seaplane bases and airfields along the coast of French Indo-China.

Last official word here on the Third fleet's activities was in a Friday night communique reporting the attacks, which had sunk enemy warships and transports and damaged 13 others, were going into their second day.

Pacific fleet headquarters listed one light cruiser and several destroyers among the enemy vessels sunk. Others included 12 transports loaded with troops.

## Report Another Raid On Formosa

(By The Associated Press)  
Japanese Army headquarters at Formosa announced that "some 200 carrier-borne U. S. planes struck today at air fields and communications" of Formosa. The report lacked immediate U. S. confirmation.

The announcement transmitted by the Japanese Domei New Agency was monitored by the Federal Communications Commission.

According to Japanese reports, the raid began at 8:30 this morning and lasted almost four and a half hours.

"Some damage was caused to our air fields and facilities," the Japanese Army announcement admitted.

Five U. S. planes were shot down, said the Army report.

The American planes hit targets which were worked over by China-based Superfortresses yesterday, and at least 30 Japanese civilians were killed in the raid, the broadcast said.

## Just Folks

## DOUBLE OR TROUBLE

One of anything won't do.  
Make it nothing if not two.  
What is given, sister, brother,  
Must be given to the other.  
Candy, paper cap or gum,  
Must have two when home I come.

Table favors—paper stuff!  
One, I've learned, is not enough.  
Look around and grab another.  
Sister wants what goes to brother.  
Double must be all I bring.  
One's a trouble-breeding thing.

When there's both a lass and lad,  
One of anything is bad.  
Enter home with just one present.  
Soon you'll face a scene unpleasant.  
Grandpas, when you're loved by two,  
One of anything won't do.

Grandpas, take a tip from me:  
Gifts for each, the rule must be.  
Take home one, with two expecting.  
That's a blunder past correcting.  
This you'll learn ere howling's through:  
One of anything won't do!

## Today's Talk

## LIFE SHOULD UNFOLD

There is a mystery, a happy expectation and a thrill of surprise that accompanies all unfolding, whether it is of a package received, unexpectedly, through the mail, the story in a book, or the unfolding of a friend's character.

Nature is forever unfolding. It is fascinating to behold the tight bud of a rose, and then to watch its unfolding, until it presents itself in unbelievable beauty, in full bloom. I came across an interesting saying of Herman Melville's recently, the author of "Moby Dick" and other great novels. He said: "Until I was 25 I had no development at all. From my 25th year I date my life. Three weeks have scarcely passed, at any time between then and now, that I have not unfolded within myself."

This self-unfolding is perhaps going on within us all, but in many of us, as an unconscious movement, unknown to us because we give it no thought. Melville gave it some thought—a great deal of thought. As a consequence, his entire string of novels proved to present a continuous development, a growth of mind, an understanding of his own spirit and of human life as a whole.

Life should unfold—naturally, and in a way to make us feel that we are progressing and are a part of the unfolding of life about us, and in the events that depict the story of the world at large. Right now there is an unfolding of the human spirit, as never before, in all lands and among all peoples. It is a people's hunger, a people's hope, and a people's determination that justice and freedom shall be the ruling factor in all life and in all governments.

This consciousness of self-unfolding is something that we should become aware of, and grasp as an advantage—for it is an advantage, a very great one. Unless we can become conscious of our strength of mind, of our spiritual heritage, and of our right to go forward, the way ahead must present itself as indeed full of confusion and darkness.

The cocoon is a strange looking small ball, but its unfolding produces the finest silk that is finally woven into precious cloth materials. Nothing, however, can compare to the unfolding of the human mind into a balanced character.

Tomorrow Mr. Adams will talk on the subject: "Moving Toward An Objective."

**Evening School:** D. McMillan proposes to teach an Evening School, in Gettysburg to commence on Monday evening. School room, at the East end of Middle-street.

**Pennsylvania Legislature.**—Both branches of the Legislature were organized on Tuesday. In the House all the members except three were in their seats.

On Wednesday, the Governor's Message was transmitted to both Houses. It would appear from it, that hereafter the State will be able to pay the interest on its public debt, as well as its other liabilities. The Governor takes strong ground in favor of the Tariff, and he thinks the Legislature should speak out in deciding terms upon this question.

**Post-Master Election:** Our locofoco brethren of this region of country had an election in this borough, on Saturday last, to determine which among the faithful should have the Gettysburg Post-Office. Some of the candidates, with their friends, did not go into the election; and we suppose the whole matter will be a farce—as the Postmaster General will pay but little attention, we presume, to so partial an expression of opinion. Mr. D. Ziegler, we learn, had 68 votes; Mr. Martin, 45; Mr. Craig, 42; Mr. Wampler, 39; and Mr. Bringman, 9.

**Tavern Stand for Rent:** The undersigned will rent for a year or a term of years, from the first of April next, on accommodating terms, that old and well-known TAVERN STAND, with a back lot adjacent thereto, in the Borough of Gettysburg, fronting on West York street, formerly known as the "INDIAN KING," now known as the "UNION HOTEL," at present occupied by Hugh M. ## SEVENTY-FIVE YEARS AGO

**Turnpike.**—Recently a number of the prominent citizens of Fairfield and the surrounding country met at the Public School House in Fairfield to organize a Company, with the view of building a Turnpike from Fairfield to Gettysburg. Col. R. C. Swope was called to the chair and J. S. Witherow appointed Secretary. The meeting was addressed by Col. Swope, H. Yingling, and others on the importance and advantages of a road. After some discussion it was resolved to build a road, and H. Yingling, John L. Tate, P. Shively, Maj. John Musselman, James Marshall, Jacob Musselman, Frank Bream, D. H. Rehman, David Stewart and J. S. Witherow, were appointed a committee to solicit subscriptions. On Saturday week 133 shares were sold at \$25 a share. It is thought that the road can be built for \$30,000. Fairfield needs a turnpike more than any other town in the county. It is situated in one of the best grain and produce sections of the county.

**New Firm.**—Perry J. Tate and Wm. D. Holtzworth have entered into Partnership in the Livery business, to be conducted at the old stand on Chambersburg street, opposite the Eagle Hotel.

## WILL REASSESS

NATION'S WAR  
LABOR SUPPLY

Washington, Jan. 15 (AP)—Opposing enactment now of pending work-or-fight legislation, Chairman Mead (D-NY) ordered today a re-assessment by the Senate war investigating committee of the nation's manpower needs.

Mead told a reporter the committee would call before it this week representatives of the War Manpower Commission, War Production Board and the War Department to learn whether the job-filling goals previously fixed had been reached by voluntary methods of whether any legislation is needed.

These witnesses also will be asked, the chairman said, whether Allied losses in material and equipment in the Germans' Belgian offensive were such as to force an upward revision in manpower needs.

## Urge Labor Ceilings

The House Military committee is continuing hearings on a measure which would make all deferred Selective Service registrants between 18 and 45 liable to penalties if they declined to comply with a request to move from non-essential jobs to war employment. Mead expressed doubt that such legislation is needed now.

The House group called representatives of the American Federation of Labor and the CIO for testimony today and tomorrow.

"That is national service in another form," Mead said of the pending bill. "It will take a long time to get it enacted and more time to set up the machinery to operate it. 'I think that if any legislation is needed, the problem might be handled more expeditiously by giving the WPB statutory authority to enforce ceilings on the number of employees in civilian production industries and giving the 'WMC' authority to stop labor hoarding in war plants."

He told the 31st annual convention of the Middle Atlantic Shoe Retailers association that a manpower shortage has developed in the industry because many skilled workers obtained war jobs before shoe-making was placed on the "essential" list.

## GIANT BOMBERS

## LASH JAPANESE AT TWO PLACES

Washington, Jan. 15 (AP)—America's heavyweights of the air, B-29s, boldly struck Japan with another one-two attack yesterday.

While one fleet of Superfortresses bombed the fortress island of Formosa, main link to the beleaguered Philippines, another force blasted the home island of Honshu.

The two daylight strikes—each with upwards of 100 planes taking part—were carried out without a single loss to enemy action, the War Department reported.

Japanese broadcasts said the target of the Honshu raiders was Nagoya, vital aircraft center. An Imperial communiqué read over the Tokyo radio claimed nine of the Superfortresses were shot down and 34 damaged over Honshu.

"An Arm of War"  
Meanwhile, it was learned that General H. H. "Hap" Arnold wants his air forces to feel that they no longer are merely "air support" but have become "an arm of war" themselves.

He asked all air forces personnel to drop reference to "air support" in favor of a more fitting description such as "air coordination."

The attack on Formosa was the second of the new year, the other in 1945 having been carried out last Tuesday.

Formosa, 90 miles off the China coast, is a concentration point for enemy planes, troops and supplies. It has been bombed frequently in recent months.

## OPA Requests No Gas Rate Increase

Washington, Jan. 15 (AP)—The OPA announced today that suspension of a proposed increase in industrial gas service rates in the Pittsburgh area has been requested.

The OPA joined with the Office of Economic Stabilization in a formal petition filed with the Pennsylvania Public Utility Commission asking for the suspension.

The increase, to be put into effect by the People's Natural Gas Company February 1 unless the commission suspends it, would raise the cost of gas service to 168 of the company's industrial customers by about \$378,000 a year, according to company estimates.

## Hid In Cellar Eight Nights From Nazis

With the U. S. 35th Division in Belgium, Jan. 15 (AP)—Sgt. Frank L. Mazzei, of Devon, Pa., is glad to be back with his comrades after eight horrendous nights spent in the cellar of a German-occupied house in Villers la Bonne Eau.

Mazzei, who hid in a cellar full of carrots and potatoes—and two dead cows—with Lt. Lawrence Eshelman, of North Platte, Neb., said: "My eyes got so good from eating carrots that I could almost see those Krauts upstairs."

The pair had a bad moment when Yanks retaking the town thought they were Germans.

"They told us to come out before they blasted us out and we yelled like two-year-olds," Mazzei said.

## LEGISLATURE

## COMMITTEES TO BE ANNOUNCED

Harrisburg, Jan. 15 (AP)—The 1945 Pennsylvania legislature will get to work this week on its program of maximum war effort and preparations for peace-time adjustments.

Appointment of committees in both the Senate and House today will pave the way for the introduction of bills, including much of the Martin administration's program.

The senate meets at 4 p. m. and the house at 9 p. m., after a two-week recess following the opening day when the Republican majority organized both branches and a joint session received the commonwealth's \$668,000,000 budget for the next two years.

First administration bills ready for introduction would allot the state's \$170,000,000 cash surplus to pay off \$49,000,000 of building bonds and earmark the remainder for postwar work.

**Hope For Agreement**  
Governor Martin has advised against any change in the state's tax structure, except to "ear mark a one-cent emergency gasoline tax yielding \$22,500,000 annually for local highways to relieve real estate levies to that extent."

In addition to the gasoline tax, the administration programs calls for re-enactment of emergency levies on liquor, cigarettes, corporate net incomes and gross receipts, estimated to yield \$151,722,000 during 1945-1947.

The Democratic minority has worked out a legislative program, but will delay presentation until after a conference Wednesday with Governor Martin and Republican assembly leaders.

"There seems to be every reason to hope that agreement can be worked out on a number of measures the administration and the Democratic caucus have taken a stand for," said Rep. Hiram G. Anders, the Democratic floor leader.

## AT HOME—AT SCHOOL

Paxton, Neb., (AP)—School is only a hop, skip and a flight of stairs away for pupils of one Keith County district school in Nebraska sandhills.

Every school day Mrs. Olga Miller, the teacher, climbs the stairs of her home to the upstairs room with her three pupils—her own children. Two younger Millers, under school age, tag along too because they have no one to look after them while mother teaches.

The school board gave Mrs. Miller, a former teacher, the job because her children were the only pupils in the district.

## German Assaults In Italy Blocked

Rome, Jan. 15 (AP)—Repeated Nazi efforts to set up outposts south of the Reno river and east of the Senio along the Adriatic battle line have been frustrated with heavy losses to the enemy, Allied headquarters announced today.

Strongly reinforced German forces have dug in along the farther banks of these rivers from the Adriatic to the Apennines and it is apparent that Field Marshal Kesselring intends to hold that line at all costs.

In the western coastal regions of the Fifth Army front German patrols stepped up actively, particularly in the Serchio valley, where a recent German counteroffensive was beaten back.

## Japanese Admits Luzon Advances

## (By The Associated Press)

A Japanese Imperial headquarters communiqué admitted today that American forces are "gradually closing in on Japanese positions on both sides of the Pangasinan plain" on Luzon.

Pangasinan plain includes the curving U. S. beachhead off Lingayen gulf leading into the broad sweeping corridor to Manila.

"Part of the American forces landed in the vicinity of Damortis," added the communiqué which was intercepted by the Federal Communications Commission, "and Japanese forces are now seriously counterattacking in this area."

Continuing this unconfirmed claim, the communiqué added that on January 11 and 12, Japanese forces sank or damaged at least 14 landing barges and accounted for about 1,000 enemy troops either killed or wounded.

## Express Offices Swept By Fire

Philadelphia, Jan. 15 (AP)—Mid-city offices of the Railway Express Agency, Inc., were swept by fire early yesterday, destroying company records and threatening war material awaiting shipment.

Seven employees were forced to flee by the blaze, now under investigation by Army and Navy intelligence, the FBI and city police.

Earlier, the three-story textile mill of Vigilant Mills, Inc., was destroyed in a six-alarm fire, with damages placed by plant officials at \$1,000,000.

## Just Folks

## DOUBLE OR TROUBLE

One of anything won't do.  
Make it nothing if not two.  
What is given, sister, brother,  
Must be given to the other.  
Candy, paper cap or gum,  
Must have two when home I come.

Table favors—paper stuff!  
One, I've learned, is not enough.  
Look around and grab another.  
Sister wants what goes to brother.  
Double must be all I bring.  
One's a trouble-breeding thing.

When there's both a lass and lad,  
One of anything is bad.  
Enter home with just one present.  
Soon you'll face a scene unpleasant.  
Grandpas, when you're loved by two,  
One of anything won't do.

Grandpas, take a tip from me:  
Gifts for each, the rule must be.  
Take home one, with two expecting,  
That's a blunder past correcting.  
This you'll learn ere howling's  
through:

One of anything won't do!

## Today's Talk

## LIFE SHOULD UNFOLD

There is a mystery, a happy expectation and a thrill of surprise that accompanies all unfolding, whether it is of a package received, unexpectedly, through the mail, the story in a book, or the unfolding of a friend's character.

Nature is forever unfolding. It is fascinating to behold the tight bud of a rose, and then to watch its unfolding, until it presents itself in unbelievable beauty, in full bloom. I came across an interesting saying of Herman Melville's recently, the author of "Moby Dick" and other great novels. He said: "Until I was 25 I had no development at all. From my 25th year I date my life. Three weeks have scarcely passed, at any time between then and now, that I have not unfolded within myself."

This self-unfolding is perhaps going on within us all, but in many of us as an unconscious movement, unknown to us because we give it no thought. Melville gave it some thought—a great deal of thought. As a consequence, his entire string of novels proved to present a continuous development, a growth of mind, an understanding of his own spirit and of human life as a whole.

Life should unfold—naturally, and in a way to make us feel that we are progressing and are a part of the unfolding of life about us, and in the events that depict the story of the world at large. Right now there is an unfolding of the human spirit, as never before, in all lands and among all peoples. It is a people's hunger, a people's hope, and a people's determination that justice and freedom shall be the ruling factor in all life and in all governments.

This consciousness of self-unfolding is something that we should become aware of, and grasp as an advantage—for it is an advantage, a very great one. Unless we can become conscious of our strength of mind, of our spiritual heritage, and of our right to go forward, the way ahead must present itself as indeed full of confusion and darkness.

The cocoon is a strange looking small ball, but its unfolding produces the finest silk that is finally woven into precious cloth materials. Nothing, however, can compare to the unfolding of the human mind into a balanced character.

Tomorrow Mr. Adams will talk on the subject: "Moving Toward An Objective."

Evening School: D. M. Millan proposes to teach an Evening School, in Gettysburg to commence on Monday evening. School room at the East end of Middle-street.

Pennsylvania Legislature.—Both branches of the Legislature were organized on Tuesday. In the House all the members except three were in their seats.

On Wednesday, the Governor's Message was transmitted to both Houses. It would appear from it, that hereafter the State will be able to pay the interest on its public debt, as well as its other liabilities. The Governor takes strong ground in favor of the Tariff, and he thinks the Legislature should speak out in deciding terms upon this question.

Post-Master Election: Our locofoco brethren of this region of country had an election in this borough, on Saturday last, to determine which among the faithful should have the Gettysburg Post-Office. Some of the candidates, with their friends, did not go into the election; and we suppose the whole matter will be a farce—as the Postmaster General will pay but little attention, we presume, to so partial an expression of opinion. Mr. D. Ziegler, we learn, had 68 votes; Mr. Martin, 45; Mr. Craig, 42; Mr. Wampler, 39; and Mr. Bringman, 9.

Tavern Stand for Rent: The undersigned will rent for a year or a term of years, from the first of April next, on accommodating terms, that old and well-known TAVERN STAND, with a back lot adjacent thereto, in the Borough of Gettysburg, fronting on West York street, formerly known as the "INDIAN KING," now known as the "UNION HOTEL," at present occupied by Hugh M. Turnpike.—Recently a number of the prominent citizens of Fairfield and the surrounding country met at the Public School House in Fairfield to organize a Company, with the view of building a Turnpike from Fairfield to Gettysburg. Col. R. C. Swope was called to the chair and J. S. Witherow appointed Secretary. The meeting was addressed by Col. Swope, H. Yingling, and others on the importance and advantages of a road. After some discussion it was resolved to build a road, and H. Yingling, John L. Tate, P. Shively, Maj. John Muselman, James Marshall, Jacob Muselman, Frank Bream, D. H. Rehman, David Stewart and J. S. Witherow, were appointed a committee to solicit subscriptions. On Saturday week 133 shares were sold at \$25 a share. It is thought that the road can be built for \$30,000. Fairfield needs a turnpike more than any other town in the county. It is situated in one of the best grain and produce sections of the county.

New Firm.—Perry J. Tate and Wm. D. Holtzworth have entered into Partnership in the Livery business, to be conducted at the old stand on Chambersburg street, opposite the Eagle Hotel.

Supper.—We understand that a number of members of "Cayugas Tribe I. O. R. M." of this place, partook of a Supper at the Gettysburg Springs Hotel on Friday evening. The Supper was gotten up by Mr. Hoppes in excellent style and everything passed off pleasantly.

Elections.—The following gentlemen were elected Directors of the First National Bank of Gettysburg on Tuesday: George Throne, John Horner, John Wolford, John Brough, Robert Bell, George Arnold.

On the same day the following gentlemen were elected Directors of the Gettysburg National Bank: George Swope, Wm. Young, Wm. D. Himes, David Wills, David Kende-lar, Henry Wirt, Joshua A. Motter, Wm. McSherry, John Waugh.

WILL REASSESS  
NATION'S WAR  
LABOR SUPPLY

Washington, Jan. 15 (AP)—Opposing enactment now of pending work-or-fight legislation, Chairman Mead (D-NY) ordered today a re-assessment by the Senate war investigating committee of the nation's manpower needs.

Mead told a reporter the committee would call before it this week representatives of the War Manpower Commission, War Production Board and the War Department to learn whether the job-filling goals previously fixed had been reached by voluntary methods of whether any legislation is needed.

These witnesses also will be asked, the chairman said, whether Allied losses in material and equipment in the Germans' Belgian offensive were such as to force an upward revision in manpower needs.

## Urges Labor Ceilings

The House Military committee is continuing hearings on a measure which would make all deferred Selective Service registrants between 18 and 45 liable to penalties if they declined to comply with a request to move from non-essential jobs to war employment. Mead expressed doubt that such legislation is needed now.

The House group called representatives of the American Federation of Labor and the CIO for testimony today and tomorrow.

"That is national service in another form," Mead said of the pending bill. "It will take a long time to get it enacted and more time to set up the machinery to operate it. I think that if any legislation is needed, the problem might be handled more expeditiously by giving the WPB statutory authority to enforce ceilings on the number of employees in civilian production industries and giving the WMC authority to stop labor hoarding in war plants."

He told the 31st annual convention of the Middle Atlantic Shoe Retailers association that a manpower shortage has developed in the industry because many skilled workers obtained war jobs before shoe-making was placed on the "essential" list.

Pittsburgh, Jan. 15 (AP)—Ten of 50 flood boats purchased by the U. S. Coast Guard are being assigned to the Pittsburgh area merely to improve equipment, and not because of any immediate flood threat.

The boats, to be stationed at strategic points, may be joined end to end or side to side to form one big craft. Seats can be removed to make a ramp. The boats are powered by outboard motors and draw only six inches of water.

Coast Guardsmen, some of whom landed shallow draft boats in the Pacific invasions, are training to use the new craft.

Light Snow Slows  
Philadelphia Traffic

Philadelphia, Jan. 15 (AP)—A one-and-one-half-inch blanket of snow made hazardous by freezing temperatures, crippled traffic in the Philadelphia area Saturday night and Sunday and resulted in the death of one man and injury to scores of others.

William H. McGee, 67, of suburban Bala was fatally injured on the DuPont highway a few miles below Wilmington. State police said his car had skidded into a ditch and he was walking along the highway in search of help when he was hit by a car operated by David J. Hudson, 25, of Frankford, Del.

Hudson, who was returning to the Lakehurst Naval Station where he is stationed, told police that he was blinded by the snow.

1943 and egg production was up seven per cent.

GIANT BOMBERS  
LASH JAPANESE  
AT TWO PLACES

Washington, Jan. 15 (AP)—America's heavyweights of the air, B-29s, boldly struck Japan with another one-two attack yesterday.

While one fleet of Superfortresses bombed the fortress island of Formosa, main link to the beleaguered Philippines, another force blasted the home island of Honshu.

The two daylight strikes—each with upwards of 100 planes taking part—were carried out without a single loss to enemy action, the War Department reported.

Japanese broadcasts said the target of the Honshu raiders was Nagoya, vital aircraft center. An Imperial communiqué read over the Tokyo radio claimed nine of the Superfortresses were shot down and 34 damaged over Honshu.

## "An Arm of War"

Meanwhile, it was learned that General H. H. "Hap" Arnold wants his air forces to feel that they no longer are merely "air support" but have become "an arm of war" themselves.

He asked all air forces personnel to drop reference to "air support" in favor of a more fitting description such as "air coordination."

The attack on Formosa was the second of the new year, the other in 1945 having been carried out last Tuesday.

Formosa, 90 miles off the China coast, is a concentration point for enemy planes, troops and supplies. It has been bombed frequently in recent months.

OPA Requests No  
Gas Rate Increase

Washington, Jan. 15 (AP)—The OPA announced today that suspension of a proposed increase in industrial gas service rates in the Pittsburgh area has been requested.

The OPA joined with the Office of Economic Stabilization in a formal petition filed with the Pennsylvania Public Utility Commission asking for the suspension.

The increase, to be put into effect by the People's Natural Gas Company February 1 unless the commission suspends it, would raise the cost of gas service to 168 of the company's industrial customers by about \$378,000 a year, according to company estimates.

With the U. S. 35th Division in Belgium, Jan. 15 (AP)—Sgt. Frank L. Mazzei, of Devon, Pa., is glad to be back with his comrades after eight horrendous nights spent in the cellar of a German-occupied house in Villers la Bonne Eau.

Mazzei, who hid in a cellar full of carrots and potatoes—and two dead cows—with Lt. Lawrence Eshelman, of North Platte, Neb., said: "My eyes got so good from eating carrots that I could almost see those Krauts upstairs."

The pair had a bad moment when Yanks retaking the town thought they were Germans.

"They told us to come out before they blasted us out and we yelled like two-year-olds," Mazzei said.

LEGISLATURE  
COMMITTEES TO  
BE ANNOUNCED

Harrisburg, Jan. 15 (AP)—The 1945 Pennsylvania legislature will get to work this week on its program of maximum war effort and preparations for peace-time adjustments.

Appointment of committees in both the Senate and House today will pave the way for the introduction of bills, including much of the Martin administration's program.

The senate meets at 4 p. m. and the house at 9 p. m. after a two-week recess following the opening day when the Republican majority organized both branches and a joint session received the commonwealth's \$668,000,000 budget for the next two years.

First administration bills ready for introduction would allot the state's \$170,000,000 cash surplus to pay off \$49,000,000 of building bonds and earmark the remainder for postwar work.

## Hope For Agreement

Governor Martin has advised against any change in the state's tax structure, except to earmark a one-cent emergency gasoline tax yielding \$22,500,000 annually for local highways to relieve real estate levies to that extent.

In addition to the gasoline tax, the administration programs call for re-enactment of emergency levies on liquor, cigarettes, corporate net incomes and gross receipts, estimated to yield \$151,722,000 during 1945-1947.

The Democratic minority has worked out a legislative program, but will delay presentation until after a conference Wednesday with Governor Martin and Republican assembly leaders.

"There seems to be every reason to hope that agreement can be worked out on a number of measures the administration and the Democratic caucus have taken a stand for," said Rep. Hiram G. Andres, the Democratic floor leader.

## NAZIS EXPERTS ON DELAY WORK

With the U. S. Third Army North of Bastogne, Belgium, Jan. 15 (AP)—Moving about the front-line areas affords an excellent—uncomfortable—opportunity to study the Germans' passive delaying defenses. They consist of many scores of trees—mostly beautiful, towering spruces up to two feet in diameter—felled across roads to form blocks sometimes as much as 50 or 60 yards long.

Hundreds of mines of varied types also have been planted. The mines almost invariably are sown thickly around the blocks and even wired to the branches, causing explosions when bulldozers try to move the timber.

The old familiar teller mine still is the most used, but new steel box mines about two feet long and a wooden box which is hard to detect also are strewn around thickly, especially in snow-filled ditches. In some places the Germans apparently were so rushed they just scattered the mines on the surface of the roads with no attempt at concealment.

The heavy snow generally made the sweepers' job harder and multiplied chances for disastrous skids from cleared main surfaces on to unswept shoulders.

**Dealers Plan To Ration Cigarettes** Chicago, Jan. 15 (AP)—That day to day uncertainty about finding cigarettes—currently plaguing many smokers throughout the nation—may be somewhat alleviated by efforts of a dealers conference that opened today. The answer, they hold, is rationing.

The National Association of Tobacco Distributors met to do something about the cigarette shortage which they dislike as much as the smokers. What they propose may take the form of national cigarette rationing to retailers aimed at a fair distribution of the limited supplies.

## YOU PUZZLED, LADY? WELL SO WAS MRS. FDR

By JAMES MARLOW  
Washington, Jan. 15 (AP)—Maybe reading this will make housewives feel a little better if—

They have trouble trying to understand why the government has suddenly done something, or hasn't done it.

Mrs. Roosevelt has the same kind of trouble.

But the President's wife has an advantage over other housewives. She can ask the head-men over for lunch and get the answers.

Remember how at Christmas time OPA suddenly ordered a lot of saved-up food stamps cancelled?

She wondered why.

This still has housewives talking to themselves. It puzzled Mrs. Roosevelt, too.

She said so at a news conference. She wondered why OPA couldn't have given some advance notice of the cancellation.

OPA Boss Chester Bowles saw a story about her puzzlement. He wrote her an explanation.

Now Bowles hadn't said anything publicly about his letter to Mrs. Roosevelt but when she wrote about it in her column, "My Day," he was asked right away.

How can the average housewife be expected to understand some of the latest government rules and regulations if Mrs. Roosevelt can't understand them?

"Threat to Whole System," "That," Bowles said, "is a darned good question."

And he added: "I can well understand the resentment against us if the reasons behind our actions (cancelling the stamps) are not fully understood."

He fished out of his files the letter to Mrs. Roosevelt and this is the meat of it:

OPA had wanted to announce the cancellation a little later but its hand was forced on Christmas Day by a "news leak" and OPA was worried about this.

But a lot of housewives had been saving their stamps, food supplies were getting lower, and the saved-up stamps were becoming a "threat to the whole rationing system."

Athens, Jan. 15 (AP)—A truce ending hostilities between the Left-wing ELAS militia and British troops went into effect today.

The peace with EAM leaders was negotiated by Lt. Gen. Ronald M. Scofield, British commander who yesterday told cheering demonstrators that his forces would protect the Greek people and their liberties against revolution from any quarter.

Moderates who were former members of the EAM, political organization of the ELAS, said at a press conference today they had completely dissociated themselves from that movement. The Moderates were formerly Socialist delegates to the EAM from Salonika.

## JAP PREMIER MAY LOSE JOB

(By The Associated Press)  
The Japanese Domei News Agency hinted at the possible ousting of Premier Kuniaki Koiso because of military reversals suffered by Japan.

Political circles in Japan have been split under the demand by the nation for a stronger internal structure to meet the growing seriousness of the war, a broadcast sponsored by Domei said.

Newly developed "factions" among national leaders are clamoring for a "bold and unprecedented political renovation" and a "second political reformation," Domei News Agency said, in a broadcast intercepted by Federal Communications Commission.

In one week recently the 32nd Ordnance Group under Lt. Col. M. I. Bookman, New York city, rolled its trucks more than 468,000 miles. In the same period it handled about 24,000 tons of ammunition from trains to trucks for a haul to ammunition supply points. In addition it loaded approximately 26,000 tons into trucks from divisions and other combat units which moved it up to the guns.

Scattered Dumps  
In the Third Army area a total of 1,800 square miles has been set aside for ammunition dumps and no one knows how many hundreds of miles of roads are lined with little piles of everything from pistol cartridges to eight-inch shells.

No roadside pile contains more than six tons and they are separated so no bombing attack could do more than pinprick damage.

Ammunition and guns are less than half of Army ordnance business. In this mechanized day everything that rolls and turns, from service watches to tanks, must be started and kept going by outfits such as the 70th Ordnance Group under Col. R. G. Baker, Spencer, Iowa, and the 69th Ordnance Group under Col. Robert Sears, Portland, Ore.

In December, for example, Third Army maintenance men repaired 9,000 general purpose vehicles, 3,000 combat vehicles, 1,400 artillery pieces, 14,000 small arms, and 3,000 instruments, including watches.

## Court Dismisses Divorce Action

A libel in divorce filed by Arthur A. Taylor against Mary (Bishop) Taylor, of New Cumberland, in the August term of court was dismissed by President Judge W. C. Sheely in an opinion handed down Saturday morning.

Chapter 24  
Dr. Nichols had just finishing his clinic and was relaxing tiredly for a moment in his austere private office when there was a knock at the door and a middle-aged nurse's aide looked in.  
"Miss Lacey is here, Dr. Nichols."  
"Ask her to come in," answered Dr. Nichols.  
The door opened and Isabel came in, head erect, shoulders back, her pretty chin thrust out defiantly.  
"Well, Doctor Nichols?" she said disdainfully.  
"Sit down, child," said Dr. Nichols gently.  
"Thanks, I prefer to stand," Isabel told him coolly. "I shan't be staying long, anyway."  
"Sit down," snapped Dr. Nichols, so sharply that she jumped.  
Isabel was angry because she had paid his thunder the tribute of an involuntary start. And her anger spoke swiftly in her answer. "You can't bully me, Dr. Nichols—I'm not one of your charity patients."  
Dr. Nichols reared to his really impressive height and snapped with resentment.  
"Don't you accuse me of roaring at my charity patients, Miss!" he said hotly. "I never snapped at a charity patient in my life. It's the ones that have enough money to afford fancy and often imaginary ailments that arouse my ire. And fresh young snippets like you who think they can slide through the world on their father's money. You and that boy friend of yours should be down on your knees thanking your lucky stars for friends like Meredith Blake and her husband."  
"I despise Meredith Blake and I loathe her husband, and nothing you or anybody else can say to me can change my opinion of them," she flashed at him.  
"Dr. Nichols glowered at her.  
"And what in hell's name ever gave you the idea that anybody cared ainker's damn for you and your poor little opinion?" he roared at her.  
Isabel stiffened and her blue eyes were flames.  
"I don't have to stay here and be insulted by you," she told him shortly, turning towards the door.  
"Come back here!" roared Dr. Nichols, and when she went on to the door, he added, "Damn it, I've got a message for you from that boy of yours."  
He saw her slim back rigid, her body still, as with her hand on the doorknob she paused. She fought him silently with every ounce of strength she had. But she lost. "You've heard from him? Dr. Nichols—you've heard from him? I haven't—not a single line—" She broke then and was weeping convulsively, like a child, her arm crooked over her face.  
"Here," he said roughly, yet not quite able to keep the almost unwilling pity from his voice, "mop up the deluge and turn off the waterworks. We're wasting time." She fought down her tears and

mopped her eyes with the rough towel, and said huskily, "Give—give me a cigarette, Dr. Nichols."

Dr. Nichols blinked, but he handed her one.

"You said you'd heard from Jerry?" she reminded him, thrusting aside his condemnation of her own emotions. "How—how is he? Please, Dr. Nichols!"

"He's got a good fighting chance to down this devilish disease," said Dr. Nichols. "But he's got to have help. And nobody but you can give him that help."

And Dr. Nichols told her, his thickly tufted white brows and said cautiously, "You never knew what was wrong with him, did you?"

"No," it was a whisper of sound.

And Dr. Nichols told her, quietly, simply, and honestly. At first she listened to him, white-faced, wide-eyed, incredulous; but as he spoke, every drop of color left her face.

"Oh—no!" she whispered, and her shaking hands hid her face.

Dr. Nichols gave her a few minutes to recover from the necessary cruelty of the truth. And then he said gently, "You see now, don't you, why it was so necessary for him to go away?"

"Oh—yes!" she whispered sickly.

"And why it was necessary to do it without anyone outside the hospital here knowing the truth?"

"I guess so," she admitted unwillingly.

"And why the whole thing has been so bitterly unfair to Dr. Merry and her husband?"

She made a little gesture with a shaking hand, unable to think of anything but Jerry and his need of her.

"I may go to see him?" she begged.

"Not just now, child," Dr. Nichols was very gentle.

Her face crumpled like that of a hurt child, but after a moment she reminded him. "You said I could help him?"

"You can. No one else in the world can, child," said Dr. Nichols. "Dr. Merry wants you to make a recording of a message straight from your heart to his—something that no one save the two of you will ever hear. It's a big assignment, and it's got to be right—because if it isn't it will be worse for him than if you had sent him no message at all. Can you do it?"

"Yes," she said quietly, with no hint of reservation.

"Good girl!" said Dr. Nichols heartily, and in deep relief. If there had been the slightest hesitation on her part he would have been afraid, unwilling for her to record the message. Dr. Merry said you had a radio-phonograph business with a recording device that you and your crowd used for amusement—making your own records. I think!"

Isabel nodded, bright-eyed and eager.

"Then rush out home and get

## GOVERNMENT IS PAYING MANY DAMAGE CLAIMS

By MAX HALL  
Washington, Jan. 15 (AP)—No robot bombs have hit the United States, but even without them the government has already paid war damage insurance claims to a number of property owners on the U. S. mainland.

The War Damage Corporation, which leads the world's insurance companies with well over \$100,000,000,000 of insurance in force, protects against loss resulting from (1) enemy attack, or (2) action of American forces in resisting enemy attack.

The corporation disclosed today—for the first time—specific examples of claims it has paid, as follows:

1 More than \$4,500 for damage to a building in Hempstead, Long Island, caused by the falling of an Army airplane.

Other Claims  
2 A "number" of claims resulting from the explosion of the U. S. destroyer Turner in New York harbor on Jan. 3, 1944.

3 Several claims in the Los Angeles-Long Beach area for damage resulting from falling shells from anti-aircraft guns.

4 More than \$1,000 for damage to an oil company's property on the California coast which was shelled by a submarine, "probably Japanese."

5 A claim of \$10 for damage to a house in the San Francisco Bay area struck by a Navy blimp.

## C-D Enrolments In Penna. Increase

Harrisburg, Jan. 15 (AP)—Civilian defense enrollments in Pennsylvania now total 1,482,556 or about one-seventh of the state's population.

Dr. Ralph Cooper Hutchinson, executive director of the State Council of Defense, said that an increase of 883 volunteers in December indicated that citizens were realizing that the war is far from won.

## RESCUED BY YANKS

With the U. S. Seventh Army in France, Jan. 15 (AP)—Pfc. Arthur Solomon, Bethlehem, Pa., and eight of his buddies lived undetected in the attic of a house occupied by Germans for three days—until they were found by a German hunting for an onion for his stew. The Americans surrendered, because they didn't have a chance to fight, but later they were rescued by troops who recaptured the town.

a record made and have it here in the morning in time to get the early train down to Atlanta, and the airmail plane there. Get going, girl!" he ordered with a return to his usual gruffness.

Isabel was on her feet, trying to voice her appreciation, her thanks. But the words came in an incoherent rush, and suddenly she flung her arms about him, kissed him and said, "Don't ever try to pretend again you're a gruff old bear—I've got your number!"

She broke then and was weeping convulsively, like a child, her arm crooked over her face.

## Young Doctor Merry

Chapter 24 Dr. Nichols had just finishing his clinic and was relaxing tiredly for a moment in his austere private office when there was a knock at the door and a middle-aged nurse's aide looked in.

"Miss Lacey is here, Dr. Nichols."

"Ask her to come in," answered Dr. Nichols.

The door opened and Isabel came in, head erect, shoulders back, her pretty chin thrust out defiantly.

"Well, Doctor Nichols?" she said disdainfully.

"Sit down, child," said Dr. Nichols gently.

"Thanks, I prefer to stand," Isabel told him coolly. "I shan't be staying long, anyway."

"Sit down," snapped Dr. Nichols, so sharply that she jumped.

Isabel was angry because she had posed his thunder the tribute of an involuntary start. And her anger spoke swiftly in her answer. "You can't bully me, Dr. Nichols—I'm not one of your charity patients."

Dr. Nichols reared to his really impressive height and snapped with resentment.

"Don't you accuse me of roaring at my charity patients, Miss!" he said hotly. "I never snapped at a charity patient in my life. It's the ones that have enough money to afford fancy and often imaginary ailments that arouse my ire. And fresh young snippets like you who think they can slide through the world on their father's money. You and that boy friend of yours should be down on your knees thanking your lucky stars for friends like Meredith Blake and her husband—"

"I despise Meredith Blake and I loathe her husband, and nothing you or anybody else can say to me can change my opinion of them," she flashed at him.

"Dr. Nichols glowered at her. And what in hell's name ever gave you the idea that anybody cared a tinker's damn for you and your poor little opinion?" he roared at her.

Isabel stiffened and her blue eyes were flames.

"I don't have to stay here and be insulted by you," she told him shortly, turning towards the door.

"Come back here!" roared Dr. Nichols, and when she went on to the door, he added, "Damn it, I've got a message for you from that boy of yours."

## GOVERNMENT IS PAYING MANY DAMAGE CLAIMS

By MAX HALL

Washington, Jan. 15 (AP)—No robot bombs have hit the United States, but even without them the government has already paid war damage insurance claims to a number of property owners on the U. S. mainland.

The War Damage Corporation, which leads the world's insurance companies with well over \$100,000,000 of insurance in force, protects against loss resulting from (1) enemy attack, or (2) action of American forces in resisting enemy attack.

The corporation disclosed today—for the first time—specific examples of claims it has paid, as follows:

1. More than \$4,500 for damage to a building in Hempstead, Long Island, caused by the falling of an Army airplane.

2. A "number" of claims resulting from the explosion of the U. S. destroyer Turner in New York harbor on Jan. 3, 1944.

3. Several claims in the Los Angeles-Long Beach area for damage resulting from falling shells from anti-aircraft guns.

4. More than \$1,000 for damage to an oil company's property on the California coast which was shelled by a submarine, "probably Japanese."

5. A claim of \$10 for damage to a house in the San Francisco Bay area struck by a Navy blimp.

Other Claims

And why it was necessary to do it without anyone outside the hospital here knowing the truth?

"I guess so," she admitted unwillingly.

"And why the whole thing has been so bitterly unfair to Dr. Merry and her husband?"

She made a little gesture with a shaking hand, unable to think of anything but Jerry and his need of her.

"I may go to see him?" she begged.

"Not just now, child," Dr. Nichols was very gentle.

Her face crumpled like that of a hurt child, but after a moment she reminded him, "You said I could help him?"

"You can. No one else in the world can, child," said Dr. Nichols. "Dr. Merry wants you to make a recording of a message straight from your heart to him—something that no one save the two of you will ever hear. It's a big assignment, and it's got to be right—because if it isn't it will be worse for him than if you had sent him no message at all. Can you do it?"

"Yes," she said quietly, with no hint of reservation.

"Good girl!" said Dr. Nichols heartily, and in deep relief. If there had been the slightest hesitation on her part he would have been afraid, unwilling for her to record the message. "Dr. Merry said you had a radio-phonograph business with a recording device that you and your crowd used for amusement—making your own records. I think?"

Isabel nodded, bright-eyed and eager.

"Then rush out home and get a record made and have it here in the morning in time to get the early train down to Atlanta, and the air mail plane there. Get going, girl!" he ordered with a return to his usual gruffness.

Isabel was on her feet, trying to voice her appreciation, her thanks. But the words came in an incoherent rush, and suddenly she flung her arms about him, kissed him and said, "Don't ever try to pretend again you're a gruff old bear—I've got your number!"

**Blames U. S. Policy For Polish Crisis**

Philadelphia, Jan. 15 (AP)—America's failure to develop a sound international policy is responsible for the Russian attitude toward Poland and the British policy in Greece, says former U. S. Senator James J. Davis.

Davis told the Philadelphia Moose lodge yesterday that "had the United States taken a strong stand for an all-inclusive system of international cooperation, the nations of Europe would have devoted their energies to implementation of that system."

**BULLETS GAIN FIRST VICTORY OVER TERRORS**

Gettysburg college notched its first basketball victory of the season Saturday evening when it handed Western Maryland a 41-22 drubbing at Westminster.

Off to the lead in the first quarter, 6-2, the Bullets picked up momentum in the second period and took a 20-5 lead at half time.

So tight was the Bullet defense in the first half that the Terrors were able to score but one field goal, that by Thompson. Bobby March, who again took the scoring honors for the Brown-men with 18 points, looped 12 tallies in the first half.

Coch Bream poured reserves into action in the second half and Western Maryland managed to pick up somewhat in scoring but never threatened.

The Bullets showed improvement over their first appearance and played particularly well on the defense, but six goals being recorded against them.

Next Saturday evening Lehigh university will meet the Bullets here.

**Sports Roundup**

By HUGH FULLERTON, JR.

New York, Jan. 15 (AP)—The other day this corner reviewed some of the notable baseball events that have taken place in the historic Polo grounds and found that space ran out long before it was time to stop.

For the Polo grounds isn't merely a baseball park. It's a football field, too, and the scene of some great boxing matches and of big events in lesser sports.

**CONTRASTS IN COLOR**

Eddie Brannick, the Giants, picks as his most vividly remembered game at the Polo grounds that 1933 duel between Carl Hubbell and Dizzy Dean when Hub hurled "one of the great games of his career" to win 1-0 in 18 innings.

But Eddie might have chosen the all-star game the next year when Hubbell fanned five great American league sluggers—Ruth, Gehrig, Fox, Simmons and Cronin—in succession. ... Another memorable all-star spectacle was that first wartime clash, in 1942, when a cloudburst swept the field just before the twilight game and a blackout followed the last play, leaving 34,000 fans to sit in darkness.

**ARMY-NAVY**

Old Manhattan field was the scene of many a titanic football tussle between Yale and Princeton, but when the Polo grounds was rebuilt after the 1911 fire, it became New York's big football field.

Such teams as Dartmouth, Syracuse, Washington and Jefferson, Lafayette and Brown—tops in those days—brought their big games to New York ... and for many years West Point chose the field as its "home" grounds for its games with Navy.

It was there that Cadets Verne Pritchard and Lou Merrill, who had learned forward passing the hard way after Knute Rockne and Gus Dorais pitched Notre Dame to victory over Army, put their lessons into effect to beat Navy 22-6 in 1913. And it was 14 years later that Red Eagle, Light Horse Harry Wilson and their now more-famous Army teammates won the last game before Army and Navy had to move to even bigger fields.

**TENTH AVE. TECH**

In 1925 the football Giants were organized and professional football in New York "caught on" when one of the best-publicized of all college stars, Red Grange, came to town with the Chicago Bears and 75,000 people turned out to see him. The game wasn't much, but the old Polo grounds never has seen a crowd like it, and the customers kept coming back for more thrills.

They got plenty in 1934 when the Bears won a regular-season tussle, 9-7, as a Chicago player stole the ball to set up a last-minute field goal by Jack Manders, and then Chicago came back for the title playoff.

That was the game played on an ice-coated field. The Giants helpless through the first half, came out after the intermission wearing sneakers instead of cleated shoes and ran wild to win 30-13.

Steve Owen, Giants' coach since the beginning, says simply: "That was my greatest thrill in sports."

**Change Grid Rules On Pass Receivers**

Chicago, Jan. 15 (AP)—High school football, at least among those teams using the T-formation, really will be a wide-open, deceptive affair next autumn.

Formerly, the defending team had only to watch where the quarterback was standing before the pass from center to determine whether he intended to go out after a pass. If he was less than a yard behind the center, the quarterback was ineligible to receive a pass.

Under a new rule adopted by the rules committee of the National Federation of high school athletic associations at its session here, the quarterback now is an eligible pass receiver regardless of where he stands before the center-snap.

That rule makes six men eligible pass receivers at all times—the four backs and the two ends. It will allow the quarterback to take the ball from the center, toss it to another back and cut through the line as a receiver, and it brings up a host of other possibilities to add impetus to the offense.

**IOWA, KENTUCKY QUINTS WIN TO STAY UNBEATEN**

By JOE REICHLER

New York, Jan. 15 (AP)—Some more college basketball teams fell out of the ranks of the unbeaten last week—but Iowa and Kentucky continued to mow down all opposition.

Iowa notched its eighth victory, the Hawkeyes swamping Purdue 61-34, to take the lead in big ten competition with two triumphs.

Kentucky, Southeastern conference champs, overwhelmed Western Michigan 66-35 for its eleventh straight. The Southerners spotted their opponents a six-point lead at halftime, but led by Sharpshooter Jack Parkinson, high scorer with 23 points, Kentucky rang up 48 points in the second half.

Previously undefeated Muhlenberg, after eleven victories, and Bainbridge were the latest to fall by the wayside, the Mules dropping a decision to Temple last Wednesday, and Bainbridge losing to Norfolk Naval Station Saturday 52-44.

Once beaten St. John's of Brooklyn, De Paul of Chicago and twice defeated Great Lakes as well as undefeated West Virginia remained near the top of the outstanding quintets, each team scoring imposing victories Saturday night.

**Mikan Tabs 30**

St. John's made it nine victories in ten games, squeezing out an overtime 43-41 triumph over a strong five at Philadelphia, after the give-and-take battle had been tied eight times. A basket by Hy Gotkin proved the deciding margin.

With six-foot-nine-inch center George Mikan dropping in 30 points to raise his two season total to 996, De Paul swamped Western Kentucky 65-37, while Great Lakes took the measure of Marquette 57-47. West Virginia followed up its victory over Long Island University with a 41-40 win over New York University at Buffalo, for its fifth straight.

The Redmen's victory over Temple put them on top in the eastern section followed by the Owls, winners of eight out of ten, N. Y. U. with nine out of 12, Muhlenberg, Columbia, Penn and City College. Army and Navy each won its second straight.

**American Supply Convoy In China**

(By The Associated Press)

The Hot Springs, Va., gallery favorite boomed into Phoenix leading the winter tour after a spectacular comeback on the Pacific coast following his discharge from the Navy.

Slammin' Sammy shot brilliant golf here until his back started troubling him after the first round. He was over par the last three rounds.

The historic convoy, the first ever to cross Burma from India, covered the first 262 miles of the 1,000-mile trip from Leda on the Indian border area to Kunming, China.

Heavy, medium and light trucks, were loaded with ammunition, jeeps, artillery and ambulances. Several drivers are Negroes who will be the first American ground troops to enter China.

At Myitkyna the convoy will wait until either the few remaining miles of the new cut road from Myitkyna to Tengchong is completed or until the last 25 miles of the old Burma road from Nankham to Wanting is cleared of Japanese.

**BYRON NELSON WINS MATCH**

Phoenix, Ariz., Jan. 15 (AP)—Peerless Byron Nelson, of Toledo, Ohio, won the \$8,666 war bonds Phoenix golf open yesterday by two strokes but his victory was overshadowed by the fading of spirited Sam Snead to 13th place. Nelson pocketed \$1,533 in war bonds.

Excellent support golf in the closing rounds enabled Danny Shute, 38-year-old Akron, Ohio, star to finish second to Nelson who posted a 72-hole score of 274, ten under par. Sam Byrd, Detroit, placed third at 277 after dubbing a shot on the last hole.

Snead's unlucky finish at 289—15 strokes off the pace—may signalize the end of a serious threat to Lord Byron's domination of competitive professional golf.

**Montreal Hockeymen Drive For New Title**

(By The Associated Press)

Resounding week-end victories over the challenging Detroit Red Wings and the revived New York Rangers put the Montreal Canadiens firmly on the road today leading to their second straight National Hockey league championship.

Added to their humbling of third-place Toronto Thursday, the triumphs over the Red Wings and Rangers marked the complete and easy disposal, within four days, of the best opposition the league has to offer the Flying Frenchmen.

Sunday's victory at New York, 6-2, snapping a five-game unbeaten string for the Rangers, maintained Montreal's four-point margin of leadership gained by Saturday's vanquishing of the Wings, 8-3. The Wings bounced back at home last night to inflict a 3-0 shutout on Toronto's Maple Leafs.

**Relief Costs In State Decreased**

Harrisburg, Jan. 15 (AP)—Relief costs in Pennsylvania dropped nearly ten per cent during 1944, Department of Public Assistance figures revealed today.

The total cost for the year was \$54,823,000, a decrease of \$5,368,000 from 1943, said Acting Secretary Robert P. Wray. The state paid out \$35,353,000 with the federal government contributing \$19,470,000.

**WRESTLING MEET**

Bethlehem, Pa., Jan. 15 (AP)—Lehigh university will play host to Navy, Army, Penn, Coast Guard academy, Penn State, Columbia, Cornell and Princeton wrestling teams at the 41st annual Eastern Intercollegiate wrestling tourney here February 9-10. Navy will be defending champion.

**SHIPPENSBURG HIGH QUINTET HERE TUESDAY**

Gettysburg high school eaglers will attempt to swing back into the win column Tuesday evening when Shippensburg high will be met on the local floor in a non-league game.

The Greyhounds are in second place in the Northern Division of the South Penn league by virtue of a 26-25 victory scored over Carlisle Friday evening at Shippensburg.

Coch "Hen" Bream's lads laced Carlisle 41-21 here last Tuesday and will be favorites to down the Greyhounds.

Far from dismayed by their defeat at the hands of a good Chambersburg team last Friday, the Maroons are priming to better their record in future games. It has been the tough luck of the Maroons that they had to meet early perhaps the strongest teams they will face this season, future opponents looming as not nearly so strong.

The Maroons will hold a light workout today as a final tuneup for Tuesday's game. No change is anticipated in the starting lineup which will comprise Gorman and Heintzelman, forwards; Ogden, center, and Eisenhart and Fidler, guards.

The Jayvee teams will clash at 7 o'clock.

Following Tuesday's tilt the Maroons will leave their home court after four games when they clash with unvictorious Waynesboro high in a loop tilt Friday night at Waynesboro.

**Plan To Hold Pa. Court Championships**

Harrisburg, Jan. 15 (AP)—Edmund Wicht, executive secretary of the Pennsylvania Interscholastic Athletic association said today that plans were going ahead for holding this year's state basketball championships.

Pointing out that the recent edict of War Mobilization Director James F. Byrnes banning conventions does not apply to basketball tournaments, Wicht said: "At the present time I see no reason why the games should not be held."

From Latrobe came word that Mark Funk, president of the Western Pennsylvania Interscholastic Athletic League, was making plans for staging the annual championships games in that organization.

Funk said "If there were any reason for calling off the title games they would have to call off all games," pointing out that travel in most cases is confined to a small area.

**Hershey Defeats Ice Loop Leaders**

(By The Associated Press)

"After taking a 4-0 whitewashing at the hands of the Hershey Bears on Saturday night, the Buffalo Bisons of the American hockey league bounced back on Sunday to trounce Pittsburgh, 6 to 4, to maintain a four-point advantage at the top of the eastern division.

Sparked by Len Halderson, reinstated after being suspended for "indifferent play," the Bisons piled up a four-goal early lead to win handily before 7,542 spectators on their home ice. Halderson turned the hat trick by scoring three of the six goals.

Indianapolis widened its edge in the western division to six points over Cleveland by squeaking by Providence, 3 to 2, in a nip-and-tuck affair before 6,385 at Indianapolis.

Hershey, Cleveland and St. Louis were idle Sunday night.

New York, Jan. 15 (AP)—Renewed restrictions on civilian use of metal is given as the reason for the Summer Welles Wednesday night commentary on MBS to leave the air.

Previously Grace Fields' sponsor, who uses metal toothpaste tubes, announced that he was signing off February 9. Welles' sponsor, a consumer of metal for watches, is closing on January 31.
